Strong Market, FUN, And Auctions Greet 1989

The auction market for certified coins gets off to an early start in 1989 with the FUN sale's lovely selection of high-grade slabbed material. With the unusually active market during the Holiday season, dealers are predicting that the momentum will carry them straight through to Spring.

Buyers of certified coins will find that this is a January to remember. Superior Galleries ends the month with a three-sale marathon (with over 2,000 lots per day and an estimated total of \$8 to \$10 million): The Jack H. Robinson Collection of Large Cents and Half Cents (see the *Greysheet* for details), The Moreira Sale Part III containing an impressive selection of certified material, and The Connoisseur's Collection of U.S. Gold Rarities.

The Connoisseur's Collection, to be sold on the evening of January 31, will have all numismatic eyes focused on Beverly Hills. Assembled by a prominent West Coast physician, the collection contains 556 lots of the highest quality and rare date gold coins, including some seldom seen Charlotte and Dahlonega pieces. This unique grouping was assembled over two decades with only one objective in mind — **to buy the best**. Premiums were naturally paid to acquire such choice specimens (substantial premiums in many cases), but on that upcoming Tuesday evening the evidence will emerge of the soundness of that investment strategy.

A little less than half of the coins were recently submitted to PCGS for certification, and a number of the "finest known" are included. Among the mint state gold coins, 133 are graded MS-65 through MS-69; among the proof

gold coins, 55 are graded Proof-64 through Proof-69. The coins were photographed before slabbing, so the reproduction quality of the catalogue is outstanding.

The sale contains so many spectacular coins that a listing of highlights would require us to publish our own catalogue; just among the Commemorative gold coins, **7 are graded PCGS-66 or better!** And the Gold Dollars and Three Dollars must be seen to be believed; a few special coins should serve to entice your interest:

Gold Coin	Cataloguer's Grade	Gold Coin	Cataloguer's Grade
1850 \$1	PCGS-67	1859 \$3	PCGS PR-65
1854 \$1 Ty2	PCGS-65	1864 \$3	PCGS-65
1857 \$1	PCGS-68	1880 \$3	PCGS PR-65
1860 \$1	PCGS PR-65	1880 \$3	PCGS-65
1865 \$1	PCGS-66	1877 \$5	PCGS PR-64
1866 \$1	PCGS-66	1893 \$5	PCGS-68
1883 \$1	PCGS-67	1908 \$5	PCGS PR-65
1877 \$2.50	PCGS PR-65	1908-S \$10	PCGS-68
1877 \$2.50	PCGS-66	1912 \$10	PCGS PR-66
1894 \$2.50	PCGS-66	1913-S \$10	PCGS-65
1895 \$2.50	PCGS PR-65	1897-S \$20	PCGS-67
1912 \$2.50	PCGS PR-67	1914 \$20	PCGS-65

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 250 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 250 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

MORGAN DOLLARS

Prooflike Morgan dollar Bids in the CDN (Greysheet) have always represented fully deep mirror prooflike coins.
 NGC P/L dollars are deep mirror prooflikes. PCGS grades P/L or DMPL. CCDn Bids represent only one-sided P/L dollars.
 Bids only Semi P/L or one-sided P/L dollars are worth less than listed DMPL Bids.

WE GRADE BY THE COIN, NOT THE CLOCK.

We know that an accurate grade takes time. So we spend more time on each coin to grade it accurately, instead of speeding through thousands of coins a day to beat the clock.

We offer limited, accurate grading.

Numismatic Guaranty Corporation knows how important it is for your coins' grades to be accurate. So we make sure our graders have plenty of time to grade your coins accurately. Our graders are limited in the number of coins they can appraise each day, and we accept only a limited number of coins for grading. We're the *only* coin grading service that sets these limits.

We've set the industry standard.

The grade we assign your coin today will still be valid *ten years from now*, because NGC-graded coins are not subject to fluctuating grading standards. We know that our greater investment in grading time produces a better investment for you: a coin with a stable grade.

For stability, reliability and accuracy, look for NGC certified coins at dealers displaying the Numismatic Guaranty Corporation of America sign.

LARRY WHITLOW, LTD. BUYING AND SELLING LOW-POPULATION PCGS AND NGC RARITIES

At Larry Whitlow, Ltd., we've always specialized in the rarest date coins in gem grade. Right now, we have our largest inventory ever of low-population PCGS and NGC rarities - the coins that are in the highest demand among collectors and investors.

Here's a small sampling of our current inventory...

- 1899 \$10 NGC-PR66 cameo (the finest known and one of only two certified PR66 in type; none higher.) **SOLD**
- 1888 \$3 PCGS-PR65 (one of only 13 certified in type; none higher.)
- 1884 Trade \$1 NGC-PR63 (the ultra-low mintage rarity; possibly the finest known, none certified higher.)
- 1879 Trade \$1 PCGS-PR66 (the only one certified 66; none higher.)
- 1897 Morgan \$1 PCGS-PR68 (the finest known and one of only two certified PR68 in the type; none higher. We have handled both Morgans certified PR68.)
- 1893 Morgan \$1 PCGS-PR67 (the finest known.) • 1892 Morgan \$1 NGC-PR67 (the finest known.)
- 1919 Walker 50c PCGS-66 (one of three certified 66, none higher; we've handled two.) **SOLD**
- 1917-D Type 1 Standing Liberty 25c NGC-66 (one of three certified 66; none higher.)
- 1892-O Barber 10c PCGS-65 (one of two certified 65; none higher.)
- 1805 Bust 10c NGC-67 (the finest known in date, type and the entire Bust denomination! An ultimate condition rarity.)
- 1903 Liberty 5c PCGS-66 (one of only two certified 66; none higher.)
- 1872 3c nickel PCGS-66 (one of only two pre-1879 coins in this series graded 66; none higher. Possibly the finest known.)
- 1915 1c PCGS-PR65RD (the only one certified PR65RD; none higher.)

Please see us at the FUN show at Tables 139-140 where we'll have our huge inventory of PCGS and NGC rarities on display.

We desperately need to buy the following coins:

- All scarce-date Walkers 1916-1934 graded MS63 or better...
- All low-population Morgan \$1 graded MS65 or better...
- All proof Barber coinage graded PR64 or better...
- All proof gold graded PR63 or better...

...in fact, we need to buy ANY and ALL gem uncirculated and gem proof rare and better-date coins!

1989 "CRYSTAL BALL GAZING" FROM LARRY WHITLOW, LTD...

1. 1989 will be a banner year for the rare coin market. Prices of high-quality material will move up across the board 20-50 percent - or more!
2. Larry Whitlow, Ltd. will be recognized as the leading dealer with the largest inventory of low-population PCGS and NGC coins in the highest grades.
3. 1989 will be the most profitable year ever for Larry Whitlow, Ltd. clients. (We'd like to thank our many customers who made 1988 one of most successful years ever!)

LARRY WHITLOW, LTD. CLIENTS MADE BIG PROFITS IN 1988!

- ... a group of PR64 Trade dollars we sold a Colorado client in 1988 has increased in value more than 50%.
- ... a California client assembling a complete set of MS66 Buffalo nickels told us the value of his portfolio increased 40% in 1988.
- ... a Florida client told us a group of high-quality type coins he purchased from us increased in value over 50% in 1988.

In 1989, we believe clients of Larry Whitlow, Ltd. will reap even larger profits!

THE LARRY WHITLOW LTD. CLIENT PROTECTION GUARANTEE

Larry Whitlow Ltd. makes a daily buy/sell market in all coins we sell and makes the following guarantees. All coins resubmitted to Larry Whitlow Ltd. under the provisions of this guarantee must be kept in their original holders.

1. Larry Whitlow Ltd. guarantees each and every coin we sell to be authentic. Should any coin sold by Larry Whitlow Ltd. prove not to be authentic, we will unconditionally refund the purchase price of the coin, plus 10% interest for each year the coin has been held by the owner.
2. Larry Whitlow Ltd. will buy back any PCGS certified or NGC certified coin we sell, at the same grade we sold it, at any time in the future.
3. Larry Whitlow Ltd. will accept a returned coin for a full refund, for any reason, within 7 days after the coin is delivered to the client.
4. Larry Whitlow Ltd. guarantees that the ask (sell) price of a coin will never exceed our bid (buy back) price by more than 20%.

Generic Bids Soften Better-Date Material Strengthens

The value of slabbed material for sight-unseen trading was well tested at the FUN Show last week; when the lights went out, pitching the bourse into total darkness, dealers tried unsuccessfully to continue trading. Standard equipment with a table rental may now include flashlights and candles.

The depth of the market continues to be the dominant theme. During this cycle it seems that there are no leaders – or more accurately, that there are dozens of them. Dealers are privately expressing relief that the top bidding spots are spread among so many dealers – it indicates additional support for prices if one or two dealers drop off of the system in response to cash flow pressures. Still, the lack of a dominant player with deep pockets seems to be affecting the tenor of the market.

This too was demonstrated as the FUN Show got off to a lethargic beginning. Generic slabbed coins, MS-63 (and lower) Gold, MS-64 and MS-65 Dollars, and MS-64 and MS-65 Walking Liberty Halves all saw little trading. With buyers lowering their Bids in uncertainty, and sellers not discounting, the result was inactivity. The lack of a strong leader to establish market direction was felt here. The lack of large orders

from the investment houses also seems to have added to dealer uncertainty, despite several claims of multi-million dollar orders pending.

Heavy attendance helped to make the show a success after its "relaxed" start. Activity increased as the show progressed, as additional collectors and

dealers showed up. Generic slabs ultimately began to sell at just slightly lower levels. For most dealers, FUN was not as strong as anticipated, but still quite satisfactory. Better-dates and higher quality continued in strong demand, and type ended the show strong at higher levels.

Sales of some spectacular coins on the bourse floor were noted. An 1858 \$10 Gold in NGC-64 and an 1821 \$2½ Gold in NGC PR-64 Cameo each traded hands at around \$100,000. A 1918/17-D Buffalo Nickel in NGC-65 (and widely considered to be nearly a 66) sold at FUN; the purchaser turned down \$75,000 as the coin later traded at a higher level. A 1924-S Buffalo in NGC-65 traded at 1½

times Bid, while a 1921-S in NGC-65 traded at 1¼ times Bid. The premiums for sight seen purchases, especially on wonder coins, continue to be as strong as we can remember.

Mid-American's 1989 F.U.N. Sale Highlights		
Denomination	Cataloguer's Grade	Price Realized
1859 Seated Liberty 10¢	PCGS PR-66	\$12,650
1923-S Standing Lib 25¢	NGC-66	\$ 5,060
1893 Morgan Dollar	NGC PR-68	\$85,800
1877 Trade Dollar	PCGS PR-65	\$11,000
1878-CC Trade Dollar	PCGS-64	\$24,200
1897-S \$5 Gold	PCGS-67	\$24,200
1907 RN \$20 Gold, HR	PCGS-65	\$35,200
1900 Lafayette Dollar	PCGS-65	\$15,950
1922 Grant 50¢ W/Star	PCGS-65	\$16,775
1922 Grant 50¢ W/Star	NGC-66	\$33,000

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 250 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 250 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin
 market for certified coins only. Only the most active areas for
 the most active grading services are represented. CCDn uses
 every means available to insure accuracy and completeness of
 the bid prices shown. Since prices represent the highest known
 bids at press time and they are based strictly on dealer needs,
 prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer.
 What price levels an individual dealer buys or sells at is strictly
 up to the dealer. CCDn represents only that the bid prices listed
 were the highest known to us at press time.

MORGAN DOLLARS

Prooflike Morgan dollar Bids in the CDN (Greysheet) have always represented fully deep mirror prooflike dollars.
NGC P/L dollars are deep mirror prooflikes PCGS grades P/L or DMPL CCDn Bids represent 1 deep mirror prooflike.
Bids only. Semi-P/L or one-sided P/L dollars are worth less than listed DMPL Bids

Sterling Investors is proud to announce the authorized minting, under license, of the 500th anniversary Proof Medallion, celebrating the discovery of America by Christopher Columbus.

**Quincentennial
Pre-Issue
1492-1992**

HOW MUCH WILL THESE COINS BE WORTH IN 1992?

Celebrate the 500th anniversary of Columbus' discovery of America with a rare opportunity. In 1992, when every major mail order house in the country will be looking for these coins to sell to the public, some astute investors will reap the rewards. Don't miss this foresighted offer.

In 1892 the United States Mint commemorated the 400th anniversary of this great event with a 50¢ silver commemorative coin. With C.E. Barber designing the obverse and G.T. Morgan (Morgan Silver Dollar designer) designing the reverse, the two most famous and talented engravers in United States Mint's history, produced a masterpiece.

We are presently striking 25,000 numbered proof pieces, each in the following metals:

Gold 2 oz. Silver 1 oz. Platinum 2 oz. Silver 1 lb. The investor metal of the future, Copper 999 Fine 1 oz. and 12 oz.

Please contact our office for price and quantity discounts.
516-367-2801 or 800-237-6947

Color catalogues available for direct mail organizations upon request.

A percentage of the profits from the sale of the foresaid medallions, will be allocated to qualified scholarship funds.

Sterling Investors, Inc.

CERTIFIED COIN DEALER

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. IV No. 3

January 20, 1989

Single copy price \$3.50

Progress Through Innovation Benefits The Coin Industry

Progress through innovation is the main ingredient which has taken the coin "hobby" out of the dark ages of rainy Saturday mornings, and made it an "industry" predicted to someday rank right up there with more traditional types of investments. All financial decisions should be based upon **knowledge and accurate information**, and to this end, the *Coin Dealer Newsletter* was established in 1963. The *CDN* has changed right along with the times; as the industry adopted new grades, or new series became popular with dealers or collectors, this information became a permanent addition to "the newsletter."

In 1986, as certified coins (principally PCGS) came into vogue, the *Certified Coin Dealer newsletter* was created. In the past three years, a few changes have been made as "progress" in the certified services continued. Small changes in the market resulted in small changes to the *Bluesheet*, and as the number of certified coins increased, so did our coverage. This week, however, we demonstrate the **strength of our commitment** to our subscribers to continue to be the finest source of pricing information in the marketplace. With this issue, we begin increasing the amount of information that will be delivered to you. We have added more than 50 new listings for Mint State and Proof Type coins alone!

Starting next week, special monthly inserts (much like the ANACS/NCI pages that appear in the first issue of the month) will feature **complete** coverage of all 38 Standing Liberty Quarters (**in nine grades**), all 35 Franklin Half Dollars (**in four grades**), and all 52 St. Gaudens Double Eagles (**in seven grades**). We will also include **complete** listings for Matte Proof Lincoln Cents and Buffalo

Nickels. The Early Gold Type coins and Better Date Coin sections of the weekly will now appear in the new monthly insert. Due to popular demand, we are also bringing back complete listings for certified **Prooflike** Morgan dollars, while continuing to present the Deep Mirror Bids in the weekly *Bluesheet*; we will be able to immediately present NGC's recently announced differentiation of Prooflike and Deep Mirror Prooflike (DPL). We thank you for making these changes possible, and hope that innovation will continue to provide you with the challenge of improvement.

Just as PCGS was innovative in their establishment of the first commercial grading service, each new idea spawns other new ideas. One of these is taking place this week in Atlanta, as "SLAB '89" presents a major all-certified sale (with PCGS and NGC coins), and a unique buyers fee of just 1%.

The certified market continues to defy attempts to predict its course. Following the surprisingly uncertain direction established at the FUN show, this week finds a fair number of plus and minus signs; some of the plus signs (Morgan dollars in MS-67 and MS-65 DMPL) represent major increases in price. Many minus signs (Morgan MS-63) represent only modest downward pressure due to a lack of supporting Bids and some lower sales. Overall, the movements might be the typical mix of a healthy market, but the tentative quality of many of the Dealers' Bids makes us a little less bullish than the signs might indicate. We are seeing too many nice coins in the market (if that is possible) and not enough money (that's always probable!).

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 250 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 250 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. *CCDN* Bids reflect 1987 and newer certified coins

The *Bluesheet* reports the national certified coin market on a weekly basis.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

Prooflike Morgan dollar Bids in the CDN (Greysheet) have always represented very deep mirror prooflike Morgan dollars.
NGC P/L dollars are deep mirror prooflikes. PCGS grades P/L or DMPL. CCdn Bids represent deep mirror prooflike dollars.
Bids only. Semi-P/L or one-sided P/L dollars are worth less than listed DMPL Bids.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

newsletter

Vol. IV No. 4

January 27, 1989

Single copy price \$3.50

Southern California Welcomes Ten-Day Numismatic Marathon

This week continues the expanded *Bluesheet* coverage of the certified coin market. Our number one request has been for Standing Liberty quarters by date - in fact, market need for detailed Bidding information on this popular series has been so great that we actually **received a petition this week** asking for coverage! In the supplemental pages, you will find all of the Standing Liberty issues, **in nine different grades!** \$20 Saint Gaudens, Franklin Halves, and Prooflike Bids for the complete Morgan Dollar series will all be appearing monthly. The Early Gold Type Coins and Better Date Coins sections, previously appearing weekly in the *CCDn*, will now be found in the monthly insert.

The Matte Proof early Lincoln cents and Buffalo nickels included in the insert are getting "double" coverage: by date in the insert, and by type in the weekly Proof Type Coin listings (also including Brown, Red & Brown, and Red Bids).

NGC's decision to differentiate their grading between DPL (Deep Mirror Prooflikes) and PL's, will likely cause some confusion in the **sight-unseen** marketplace until the Deep Mirror Prooflike coins are repackaged as such. According to NGC, the vast majority of previously labelled PL coins will qualify for the new DPL designation.

The biggest news in the numismatic marketplace is the upcoming California coin season - three months worth of normal activity will be crammed into the next ten days. The Numismatic Association of Southern California

convention is accompanied by Bowers and Merena's auction featuring a broad selection of material from the estate of Byron F. Johnson. Superior Galleries immediately follows with three interlocking auctions, going morning to night for three days: the fabled Jack H. Robinson Collection of Large Cents and Half Cents; The Moreira Collection Sale, Part 3; and A Connoisseur's Collection of United States Gold Rarities (on Tuesday, January 31). On Wednesday, the feast moves to the Long Beach Coin Show, with a certified-only sale by Pacific Coast Auctions; Heritage's sessions run Thursday through Saturday. Ten days that cannot help but make numismatic history.

The certified market continues to rebound from January's uncertain start at the FUN show. Healthy numbers of plus signs are recorded for series in higher grades: Mercury Dimes (65FB & 66FB), Walking Liberty Halves (65 - 67), and Morgan Dollars (65 & 66). Surprisingly, after several weeks of inactivity interspersed with minor drops, MS-63 Morgans made a strong showing. Commemoratives have shaken off some recent weakness and are advancing solidly in higher grades. The plus signs dominate the charts for Mint State Type and Proof Type, as well as Gold Type; in fact, plus signs outnumber minuses 422 to 81 in these three charts, and some of those plus signs represent very substantial increases. These pages alone could easily convince you of a numismatic Bull market. In this case, Southern California is definitely the arena to be in.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 250 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 250 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. *CCDn* Bids reflect 1987 and newer certified coins.

The *Bluesheet* reports the national certified coin market on a weekly basis.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi reflective on one or both sides, with less reflectivity than the deep-mirror Proofs. Bids for P.L.s are usually much lower than for DMPL, but command some premium over non-P.L. coins.

Now available in one single volume is a distillation of data gathered over a 25-year period by America's leading source of coin price information: *The Coin Dealer Newsletter*! Market

closing prices are given year by year, 1963 to date, for all popular series, including silver dollars, gold, commemoratives, bullion gold and silver—you name it! Here in 527 information-packed pages is the most authoritative source in print for U.S. coin market data!

At your fingertips is a vivid record of the coin market, cycles, changes in popularity, changes in grading interpretations, and other events which have shaped the market. Year after year, this information has been used by dealers, government agencies, collectors, and investors—but **never before** has it been available all at once in a single volume. For just \$34.95 (softbound) or \$49.95 (limited hardbound) you gain a veritable **encyclopedia** of coin market information that cost MILLIONS OF DOLLARS to gather over a period of time! Indeed, this information cannot be duplicated elsewhere **FOR ANY PRICE!**

In addition, the volume contains market studies, articles, and commentaries by many of the best-

known authors in the rare coin field, those who have written "Monthly Summaries" over a long period of time. This book can make you a **MARKET EXPERT!** There is no better way to **PREDICT THE FUTURE** than to know what has happened in the past!

This immense book has been prepared in coordination with the editor and publisher of *The Coin Dealer Newsletter* and has been edited by Q. David Bowers.

GUARANTEE: After you receive your book, you have a full 30 days to be sure it is worth every penny of the price paid—and more—or it may be returned for an instant refund, no explanation necessary! However, we are sure that you will find that if we charged you twice the price for the book, it would still be the **INFORMATION VALUE** of a lifetime! Order your copy today by calling toll-free (800) 222-5993, or mail the coupon below.

On the occasion of the twenty-fifth Anniversary of the *Greysheet*, We're **EXPANDING** the *Bluesheet*!

The *Certified Coin Dealer* newsletter may only be in its fourth year, but it's never too early to begin making improvements. As part of the *Greysheet*'s twenty-fifth anniversary celebration, the entire staff rededicated their efforts to serve our subscribers with the finest numismatic pricing information available. Over the next year, you will be seeing even more improvements in the CDN family of publications – not an easy job when you are already the market leader in providing accurate, unbiased, timely information.

So what's coming? In addition to the 543,004 prices *Bluesheet* subscribers now receive annually, we will be adding:

Mint State Type Coins: expanded coverage, including nearly three dozen new listings, **all in seven grades!**

Draped Bust Half Cents, Brown
Classic Half Cents, Brown
Braided Half Cents, Brown
Liberty Cap Large Cents, Brown
Liberty Cap Large Cents, Red & Brown
Liberty Cap Large Cents, Red
Draped Bust Large Cents, Brown
Classic Large Cents, Brown
Coronet Large Cents, Brown
Braided Large Cents, Brown
Indian Cents, Brown
Two Cents, Brown
Flowing Hair Half Dimes
Draped Bust Half Dimes, Small Eagle
Draped Bust Half Dimes, Large Eagle
Seated Liberty Half Dimes, No Drapery
Draped Bust Dimes, Small Eagle
Draped Bust Dimes, Large Eagle
Capped Bust Dimes, Large Size
Seated Liberty Dimes, No Drapery
1796 Quarters
Draped Bust Quarters, Large Eagle
Capped Bust Quarters, Large Size
Seated Liberty Quarters, No Drapery
Seated Liberty Quarters, 1853 Arrows & Rays
Flowing Hair Half Dollars
Draped Bust Half Dollars, Small Eagle
Draped Bust Half Dollars, Large Eagle
Seated Liberty Half Dollars, No Drapery

Capped Bust Quarters, Large Size
Capped Bust Quarters, Small Size
Draped Bust Dollars
Seated Liberty Dollars, No Motto
Gobrecht Dollars
Lincoln Cents: new listings for Matte proof specimens in seven grades: 1909VDB; 1909; 1910; 1911; 1912; 1913; 1914; 1915; 1916; 1917.
Buffalo Nickels: new listings for Matte Proof specimens in seven grades: 1913 Type I; 1913 Type II; 1914; 1915; 1916; 1917
All 38 Standing Liberty Quarters, listed by date; new complete listings in nine grades.
All 35 Franklin Halves, listed by date; new complete listings in four grades.
Complete Morgan Dollar listings for both **prooflike** and **deep mirror prooflike** specimens.
All 52 \$20 Saint Gaudens, listed by date; new complete listings in seven grades.

Plus the nicest surprise of all – despite the cost of adding tens of thousands of new prices every year, we can still offer tremendous savings for annual subscribers, and **incredible** savings on multi-year subscriptions.

An expanded, improved *Certified Coin Dealer* newsletter – the “old *Bluesheet* was already a great Value – which makes this the opportunity of the decade. We invite you to join in our continuing success.

**If you think we've only improved the *Bluesheet*,
Just wait until you see what we have planned for the *Greysheet*!**

Connoisseur's Coins, Superior's Sale,
Premium Prices

Most of the recent plus signs in the *Bluesheet* have been for higher grade material, and the **spreads between MS-61 and MS-67 continue to be astounding!** Depending upon the series, the "break" between "lower" grade and "higher" grade material fluctuates between MS-63 and MS-65, but the effect is the same: above that point, you are selling a population position instead of a simple coin. Now, every study that we have made of historical pricing performance shows that **much greater** profits have been realized by the purchasers of higher quality material; but those studies are all based on purchases made when a "gem" cost only a bit more than its more common counterpart, and the collector could afford to stretch the extra 25% to 50%. While collectors can now purchase relatively nice certified MS-61 or 62 coins for little more than the cost of the plastic, something can still be said for buying premium quality coins even at premium prices.

Not that there is any shortage of demand for the high grade certified material; prices at Superior Galleries' A Connoisseur's Collection of U.S. Gold Rarities certainly proved that. The collection of a prominent West Coast physician, the 556 lots (of the highest quality, and rare date & mint gold coins) realized \$4,770,6684 (averaging \$8580 per lot!). Assembled over two decades with the objective of **buying the best**, the premiums paid to acquire such choice specimens seem to have been quite justified. Approximately half of the coins in the sale were certified by PCGS.

Gold Coin	PCGS Grade	Price Realized	Gold Coin	PCGS Grade	Price Realized
1850 \$1	MS-67	\$44,000	1863 \$3	PR-65	\$ 52,800

1859 \$3	PR-65	\$46,200	1914 \$20	MS-65	\$ 14,850

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 250 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 250 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

ANACS

American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

11 Pc. Complete Set	26,500	39,500	72,500

SDICA recommends Gold Commemoratives in PCGS holders at this time.

Low mintages on most issues pinpoint this series for excellent potential profits. Most of the gold commems I view at coin shows are cleaned or damaged.

Remember, PCGS only grades coins that are "undamaged and uncleaned", so this puts a premium on all investment grade commem gold.

Why not start on the 11 pc. set today?

We are always interested in buying gold commems, raw, NCI or PCGS. Call us Toll Free (800) 666-0348.

Norweb 1893-S Morgan Graded PCGS-67

As the certified market goes, so goes Long Beach; or is it the other way around? Little matter. This Long Beach provided an excellent show with a market that was steady to higher. Dealers specializing in collector coins were heartened to see large numbers come to inspect their wares. And "raw" coins commanded at least one major story, as an original (and it must have been some original) roll of 1880-S Morgan Dollars traded hands several times on the bourse floor before reaching an excited buyer at \$27,000. Are the dollars now scheduled to visit one of the grading services?

Slabbed coins were also in the headlines with the certification of the Norweb 1893-S Morgan Dollar by PCGS as an MS-67, with some of the graders in favor of a higher rating. The owner of that singularly remarkable coin, after paying \$357,500, certainly had no need to have his judgment confirmed; the multitude of bidders over \$250,000 had already accomplished that. But so pervasive is the feeling that certification is the way of the future in the coin market, that even this impressive coin has now been slabbed.

The new ANACS slabs were in evidence on the bourse floor, as were the new holographically protected NGC slabs. But the number one story at Long Beach was provided by Iraj Sayah, previously best known for his major presence in the certified gold market. "Roger" now has a new claim to fame - host extraordinaire; the premier social event of the numismatic year was his almost unbelievable dinner party. More than a thousand guests

crowded the Long Beach Hyatt to enjoy superlative international cuisine and spectacular entertainment. The lavishness of the evening was a major advance in meeting the numismatic industry's need to put forth a more professional image. This degree of elegance is still another step towards competing in the larger financial markets.

A party of a different sort took place on the auction platform as six major sales occurred during the ten day California numismatic "season": Bowers & Merena's Byron F. Johnson; Superior Galleries' Jack Robinson, Moreira Pt. 3 and Connoisseur's Collection; Pacific Coast's Certsale V; and Heritage's Long Beach sale. All told, \$17.4 million hammered down.

Pacific Coast Auction Galleries' Certsale V provided another indication of a growing auction phenomena: the all-certified sale produced with a minimum of cataloguing. About the only embellishment is the occasional reference to the population reports. Among the highlights were:

Denomination	Certified Grade	Price Realized
1807 Dime	PCGS-61	\$ 4,235
1876 Twenty Cent	PCGS PR-64	\$ 4,620
1851 Gold Dollar	PCGS-64	\$ 5,500
1854 T2 Gold Dollar	PCGS-64	\$15,400
1881 Gold Dollar	NGC-67	\$13,750
1908 Indian \$2½ Gold	PCGS PR-65	\$15,840
1908 Indian \$5 Gold	PCGS-65	\$20,350
1907 \$20 High Relief	NGC-64	\$18,150

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 250 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

The Bluesheet reports the national certified coin market on a weekly basis.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Cartwheels Keep Market Spinning Collectors Chase PL's and DMPL's

The current certified market shows healthy activity, with plus signs dominating the charts in most series. Morgan dollar bidding continues to center on the higher grade coins and mirror specimens (the PL listings are included in this week's insert). Bids on Saint-Gaudens \$20's in higher grade indicate continued strong demand for these coins by date collectors. Activity on Standing Liberty Quarters continues at a strong pace, but most of the plus signs are in the collector dominated lower grades.

In the type charts, both Mint-State and Proof, plus signs can be found on nearly all of the silver issues; in fact, the "silence" of a lack of plus signs on the copper issues (especially after all of the excitement of the Robinson sale) is almost deafening. Perhaps the buyers for early coppers spent their available funds on rare date and variety coins instead of types. Gold types, both Mint State and Proof, also show very strong "plus" activity. Across all series, the number of coins bidding above the \$100,000 barrier is growing every week.

Dealers continue to view the shortage of fresh money in the market with apprehension. Least concerned seem to be those dealers who have actively managed a strong retail customer base, and the wholesalers who will sell any coin at any time. More concerned are those dealers who have set aside part of their inventory in the

hopes of filling the rumored upcoming Wall Street portfolio; they may be missing the cash flow and profits generated by inventory turns.

The Vintage Auction, held last weekend in Baltimore, realized about \$1.5 million. Included among the certified highlights were:

DENOMINATION	CERTIFIED GRADE	PRICE REALIZED
1866 Nickel, Rays	PCGS PR-65	\$ 8,800
1914 Buffalo Nickel	NGC PR-67, Matte	\$ 8,250
1875-S Seated Dime	NGC-65	\$ 3,300
1898 Barber Dime	PCGS PR-67	\$ 7,700
1874-S Quarter, Arrows	PCGS-65	\$ 5,280
1828 Bust Half	PCGS-65	\$12,100
1908-D Barber Half	PCGS-67	\$18,150
1879 Trade Dollar	NGC PR-65	\$10,400
1853 \$1 Gold	NGC-66	\$19,800
1885 \$1 Gold	PCGS-66	\$ 9,900
1901 \$20 Gold	PCGS PR-63	\$19,800
1936 Wisconsin	NGC-67	\$ 2,750

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars (semi-prooflike or one-sided PL) will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective on one or both sides, but with more reflectivity than the deep-mirror Proof. Bids for P.L.s are usually less than for DMPL, but comparable and some premium for P.L.s.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating *the* standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

A WONDERFUL COLLECTION OF CURRENCY

In New York City on March 31, 1989, at the Vista Hotel, World Trade Center, in connection with the Metropolitan New York Convention, Bowers and Merena will be auctioning a major holding of United States currency notes. Included will be important properties from the Norweb family, dealer Lester Merkin, and other sources. Included will be the following:

Large Size Notes: Uncut sheets, early issues from the 1860s onward, "type" notes, National Bank Note issues, and other items, including the popular "Educational" series, the "Technicolor" note, and many, many more—nearly all of which are in top grade.

Small Notes: Uncut sheets, errors, and other important items.

Fractional Currency: Scarce individual varieties, specimens, Lester Merkin's famous and exceedingly rare lavender background Fractional Currency Shield, which was displayed on his office wall for many years and which attracted great attention among specialists.

The currency offering will be included in a marvelous catalogue (480 pages), now being prepared. The catalogue will feature coins, tokens, medals, and other items in addition to currency, highlighting the Hagle, Griner, Rudduck, and Bebee collections, in addition to the sources just mentioned. All of this will be part of a five-day series of sales commencing on Monday evening, March 27, at the Vista Hotel, and continuing through March 31, on which day the currency will be sold. Catalogue copies are limited, and are offered on a first-come, first-served basis. Order right away! The price is \$20 postpaid. Your best bet: Send \$49, and we will send you this catalogue plus all others we issue during the next year, plus additional periodicals, for a total value on an individual basis of over \$150. Included will be many currency offerings!

CURR289

☐ YES! Please send me _____ copy(s) of this 480-page, "Grand Format" catalogue for only \$20 each, postpaid.

☐ Sign me up to a one-year subscription to all your publications (including catalogues and other periodicals) for only \$49.

☐ Enclosed is cash, check, or money order for \$_____. Or charge to my ☐ MasterCard ☐ Visa ☐ American Express

Sterling Investors is proud to announce the authorized minting, under license, of the 500th anniversary Proof Medallion, celebrating the discovery of America by Christopher Columbus.

**Quincentennial
Pre-Issue
1492-1992**

HOW MUCH WILL THESE COINS BE WORTH IN 1992?

Celebrate the 500th anniversary of Columbus' discovery of America with a rare opportunity. In 1992, when every major mail order house in the country will be looking for these coins to sell to the public, some astute investors will reap the rewards. Don't miss this foresighted offer.

In 1892 the United States Mint commemorated the 400th anniversary of this great event with a 50¢ silver commemorative coin. With C.E. Barber designing the obverse and G.T. Morgan (Morgan Silver Dollar designer) designing the reverse, the two most famous and talented engravers in United States Mint's history, produced a masterpiece.

We are presently striking 25,000 numbered proof pieces, each in the following metals:

Gold 2 oz. Silver 1 oz. Platinum 2 oz. Silver 1 lb. The investor metal of the future, Copper 999 Fine 1 oz. and 12 oz.

Please contact our office for price and quantity discounts.

516-367-2801 or 800-237-6947

Color catalogues available for direct mail organizations upon request.

A percentage of the profits from the sale of the foresaid medallions, will be allocated to qualified scholarship funds.

Population Reports Invaluable; Still, Low Populations Can Be Misleading

When is a "common" coin "rare"? This is not a trick question; the answer is as clear as the plastic in a certified slab. Over time, we have often observed that sometimes the 'plastic was rarer than the coin'. You don't need population reports to know that even 1881-S Morgan dollars in lower grades are going to be more common than in higher grades; yet, if you were to judge rarity only from the population reports, MS-60's are scarcer than MS-67's.

This is the paramount difficulty in using the population reports to represent true grading profiles. The Slab population was not selected at random - quite to the contrary - it is a result of the selection of only better material for submission. Because of the relatively high cost of certification (compared to the value of common "rare" coins), it is entirely logical that very few such coins would be intentionally submitted. In fact, it could be argued that the submitting dealer has a responsibility **not to submit** lower value specimens, to avoid undue loss to the coin's owner. And even among the higher grade coins, the population numbers are skewed by resubmissions and breakouts; judging from the sound of cases being popped against the concrete at the last Long Beach, this factor cannot be overlooked by anyone using the population reports.

If your customers are familiar with the current market, they should know not to submit some coins for certification (unless they want to "give" a "rare" coin away), and conversely, that many such coins are now available with "free certification". They can buy \$22 worth of plastic with a free coin inside, or even worse, in some aftermarkets, \$22 worth of plastic for \$16 and *still* get the free coin. And they say there is no Santa Claus in numismatics. Many of these coins are "rare" slabbed, but that doesn't make them any more valuable.

The population reports have also created some valuation problems for collectors of the very highest graded material. It is manifest that some coins are now extremely rare or unique in their highest known certified grades; it remains to be seen whether the total population will yield additional specimens of equal or greater grade. In the meantime, there is active bidding (mostly plus signs) on material which doesn't exist (or hasn't been discovered). There is nothing wrong with saying that if coin x in grade y is discovered, I will pay z dollars for it; but it is a mighty thin foundation on which to build a financial industry. Are rare coins or futures in population positions being sold?

Perhaps an even greater problem caused by the quantification of the highest slabbed grades is that the current system is susceptible to abuses. It is now a simple matter for the dealer who owns "the finest known" to be aware of that fact; he can 'safely' raise his Bid for that coin (by \$10,000 or \$20,000), **not in the hopes of buying another one, but in the hopes of selling his at an ever-increasing profit!** Now, we don't argue with the observation that among such premium coins, the value is what some buyer is willing to pay (the Norweb 1893-S being a prime example). Nor do we argue that you should sell a coin at \$30,000 if it is "worth" \$40,000 (meaning an informed customer is willing to pay that price). Or even that you have the right to set any price on your property that you please. We do, however, believe it is unethical for dealers to deliberately raise the bid on material that they have no intention of buying, stick a customer with an overpriced coin (based on "market" valuation), and then drop their Bids off the system. The teletype networks are going to have to find a way of controlling such activity if they hope to avoid endless legal complications.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

Inflation Strikes Fear Into the "Eyes" of Numismatics

Although the fear of higher inflation has had an unusual adverse effect on the Gold and Silver bullion markets, rare coins (and especially certified coins) are indicating a sustained upward price trend. The precious metals have fallen consistently for the last few months, while it appeared that inflation was under control. However, over the last few weeks, new reports indicate that higher inflation levels are imminent. The *prime rate* has moved higher, increasing the cost of borrowing. The higher *prime rate* will directly influence the housing industry (with a predicted slowdown in new housing starts), as well as other inflation sensitive segments of the economy. People are beginning to wonder if the 1980's are going to end like they began.

The number of plus signs across all of the charts is clear evidence that new-money demand is finding its way into the rare coin market. It is too early to compare this with the flood of money seeking hard assets that fueled the coin boom of the early 1980's, but the scenario looks familiar. It's not only the high grade material (all too often the unobtainable **rare** coins) that is showing all this activity, but also the MS-64's and MS-65's that appeal equally to investors and collectors. In several of the series, the growing demand and short supplies of the high grade coins are starting to push that demand into the MS-63 ranges.

It remains to be seen what the growing infusion of "Wall Street" money will do to prices and the market. With the size of just one private offering rumored in the tens of millions of dollars, one wonders how many coins can be taken out of the marketplace (for three to five years) before collectors find that there is little left to collect.

The coin market has taught us not to believe in simple cause and effect explanations, but it sure seems like the demand for PCGS material has intensified since they slabbed their one-millionth coin. This week's *Bluesheet* continues the upward movement of a broad range of certified material. Type coins in Mint State are active across all of the Uncirculated grades, and Proof Types above PR-63 equally so. Gold Type above MS-64 is active, and all Proof gold. Dollars above MS-63 and all DMPL's continue to exhibit more movement in one week than we used to see in a strong month. Interest in Commemoratives, another of the series that we formerly used to gauge collector strength in the market, continues unabated in the higher grades. Mercury Dimes are showing surprising strength in the lower uncirculated grades (especially in the early years), as are Buffalo nickels. If there is a weak spot in the certified market, we haven't seen it lately.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins

Retail or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

AUCTIONS BY BOWERS AND MERENA, INC. PRESENTS

One of the greatest sales ever held:

FOUR LANDMARK COLLECTIONS

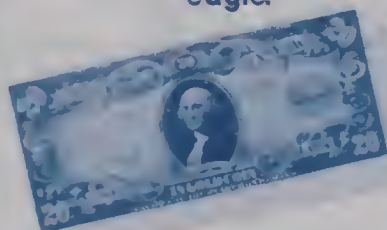

New York City, March 27-31 1989

This color-illustrated
"Grand Format"
catalogue is 480
pages in size.

The rare 1825/4 half
eagle.

A superb
"Technicolor" note.

TO ORDER: A limited number of extra catalogues are available, one per customer, on a first-come, first-served basis for \$20 postpaid to any U.S. address. **YOUR BEST DEAL:** Send \$49, and we will send you all of our auction catalogues and periodicals for the next year, including "Four Landmark Collections"—a value equal to well over \$150 if ordered separately!

One of the greatest auction sales of our time will take place at the Vista Hotel, World Trade Center, New York City, Monday, March 27th through Friday, March 31st, and we invite you to participate in it. You can bid in person, or, as many of our clients do, by mail. This catalogue gives you complete information. On the block will be selections from "Four Landmark Collections," including the Hagle Collection, formed many years ago and kept in a bank vault since then; the Jerome Griner Collection (of Hard Times Tokens), the Lionel L. Rudduck Collection (of Civil War tokens and store cards), and the Aubrey and Adeline Bebee Collection, as well as other notable properties.

The Hagle Collection, to be sold on March 27th and 28th, is laden with fantastic rarities, including two 1882 (yes, 1882) Liberty Head nickels, exact type of 1883; superb early silver coins, Liberty Seated rarities; a prooflike 1796 half dollar and one of the finest known 1797 half dollars, the legendary 1838-O half dollar; silver dollars, including THREE different specimens of the 1794 (!), a gem Proof 1802 restrike, dozens of early 1795-1803 dollars, including Uncirculated coins (!), 1836 Gobrecht with name in field; gold rarities from \$1 to \$50, including nearly 100 \$3 pieces (including two 1854-D, 1873, 1876, etc.); dozens of rare half eagles 1795-1834, including one of two known 1825/4 pieces, and multiple other rarities from the 1820s and early 1830s; \$10 1795-1804, including great rarities, later \$10 including Uncirculated 1838, the rare 1875, 1907 With Periods, rolled rim, multiple 1907 With Periods, wire rim, etc.; \$20 including Proofs, and one of the most remarkable offerings of MCMVII High Relief pieces ever to be sold; commemoratives, including a gem Panama-Pacific set; territorial gold, including 1850 Baldwin "horseman" \$10, 1855 Wass, Molitor \$50, and much more! By itself, this offering would stand as one of the greatest ever!

The Jerome Griner Collection and the Lionel L. Rudduck Collection will be sold on the afternoon of March 29th, "Americana Day" we have called it. In addition to many superb tokens and store cards, there will be a rich offering of colonial coins from 1652 Massachusetts coins onward, plus state copper coins, Washington pieces, etc.

Part II of the Aubrey and Adeline Bebee Collection (we sold the first part in 1987) and other items will be sold on March 30th and 31st, in conjunction with the New York Metropolitan Convention at the same site. Included will be important gold coins, silver dollars, commemoratives, an 1895 Proof set, and other coins; U.S. paper money, including Gem New "Educational" notes and other popular items, a superb "Technicolor" note, Proofs and essays of fractional currency, Lester Merkin's believed unique lavender background fractional currency shield (earlier owned by the Chapman brothers), uncut sheets, etc.; coins of the world, including long runs of German state issues, high-grade Canadian coins, gold coins, and much more!

YES! Enclosed please find my cash, check, or money order for \$_____, or charge to my ☐ Visa, ☐ MasterCard, or ☐ American Express. CDN389

Account No. _____ Expires: _____

Please send me the indicated item:

- ☐ \$20 for the Four Landmark Collections catalogue
☐ \$49 for a full year's subscription—including the Four Landmark Collections catalogue

newsletter

Vol. IV No. 10

March 10, 1989

Single copy price \$3.50

The New "Good Old Days" Sophistication Brings New Buyers

You would find little disagreement among numismatists that grading has become more "scientific". The coin industry currently shares greater knowledge of grading characteristics and agreement on standards than ever before. Certainly many will argue that this is not "progress", and that the old designations and standards were easier and better; we don't quibble with easier, but "better" is a judgment that only the market can make. Right now, the market is voting for the new grading standards with its dollars, and judging from the number of plus signs, the vote is a landslide! Others may argue that the prices being paid for many coins now are totally out-of-sight, and that extraordinary spreads are developing for minute differences in coin quality (you may even read such opinions here on the odd day). Looking at prices on a daily basis, year in and out, we have no choice but to conclude that coins are worth what someone is willing to pay for them, regardless of tradition, or prejudice, or even last week's Bid. It is no more "logical" that a coin should be "worth" \$1,000 or \$10,000, or any other figure above melt. The market demand sets the price.

One sure advantage of the grading "revolution" (in the classic definition of the term) has been the return of actually looking at coins. In the 'good old days', numismatists studied their coins: perhaps to discover new die varieties; perhaps to discern some of the history of the piece. As basic numismatic information became more widespread (through such publica-

tions as the Redbook), collecting frankly became more a function of filling holes in albums. It was no longer necessary to study the coin; in most cases, the coin received a cursory glance by both dealer and collector, and was assigned a broadly-defined grade.

Today's grade-driven market seeks quality, and has forced numismatists to once again look at their coins. The motivation may now be financial rather than curiosity, but the end result is that the coin at least spends some time in your hand before it goes into your inventory. Protected from your hand's perspiration and oils by a slab, perhaps, but inspected nevertheless. One could argue that looking is fine, and looking with a glass is fine, but the line should be drawn before you reach 100 power or electron scanning microscopes. As long as the owner looks, who cares?

The Certified market continues to perform admirably. Every series has its share of plus signs and overall they outnumber the minuses 2,246 to 145. Furthermore, the majority of issues with no changes this week are in demand at current Bid levels. Commemoratives, Dollars, and Type continue to lead the onslaught of plus signs with Gold issues showing fewer plus signs only because there are fewer categories. Most dealers feel the strength of this market resides in the anticipation of fresh money coming into the market. With Wall Street having both feet in the doorway, the possibilities seem almost endless.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins

Retail or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin
 market for certified coins only. Only the most active areas for
 the most active grading services are represented. CCDn uses
 every means available to insure accuracy and completeness of
 the bid prices shown. Since prices represent the highest known
 bids at press time and they are based strictly on dealer needs,
 prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer.
 What price levels an individual dealer buys or sells at is strictly
 up to the dealer. CCDn represents only that the bid prices listed
 were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible
 bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit,
 on a sight basis.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually lower than for DMPL, but command some premium over non-P/L strikes.

GOLDTOWN

RARE COIN INVESTMENTS, INC.

"Quality Never Goes Out of Style" - Or Demand!

ALL COINS ARE PCGS OR NGC GRADED! - PRICES SUBJECT TO CHANGE

Although GOLDTOWN is regarded as one of America's leading buyers of 66, 67 and 68 quality rare coins we have a difficult time keeping them in stock very long, (for price lists, Ad's, Etc...). We currently (as of March 1, 1989) have a few rare coins available in lesser grades, but still low on the population report. But 1 st...

1888-P M.S. 67 MORGAN DOLLAR The only one certified as a 67 by either Major Grading Service - In fact P.C.G.S. has only graded (6)-66's \$18,500.	1882-S M.S. 68 MORGAN DOLLAR (P.C.G.S.) This is the FINEST and ONLY certified M.S. 68 out of more than 12,000-82's certified in mint state by all grading services. \$20,000.	1891-S M.S. 67 MORGAN DOLLAR This is the best example of 3 coins certified 67. This is a real M.S. 67 from the "NORWEB COLLECTION". \$16,500.

The Coin Dealer Newsletter: A Study In Rare Coin Price Performance: 1963-1988

Now available in one single volume is a distillation of data gathered over a 25-year period by America's leading source of coin price information: *The Coin Dealer Newsletter*! Market

closing prices are given year by year, 1963 to date, for all popular series, including silver dollars, gold, commemoratives, bullion gold and silver—you name it! Here in 527 information-packed pages is the most authoritative source in print for U.S. coin market data!

At your fingertips is a vivid record of the coin market, cycles, changes in popularity, changes in grading interpretations, and other events which have shaped the market. Year after year, this information has been used by dealers, government agencies, collectors, and investors—but **never before** has it been available all at once in a single volume. For just \$34.95 (softbound) or \$49.95 (limited hardbound) you gain a veritable **encyclopedia** of coin market information that cost MILLIONS OF DOLLARS to gather over a period of time! Indeed, this information cannot be duplicated elsewhere **FOR ANY PRICE!**

In addition, the volume contains market studies, articles, and commentaries by many of the best-

known authors in the rare coin field, those who have written "Monthly Summaries" over a long period of time. This book can make you a **MARKET EXPERT!** There is no better way to **PREDICT THE FUTURE** than to know what has happened in the past!

This immense book has been prepared in coordination with the editor and publisher of *The Coin Dealer Newsletter* and has been edited by Q. David Bowers.

GUARANTEE: After you receive your book, you have a full 30 days to be sure it is worth every penny of the price paid—and more—or it may be returned for an instant refund, no explanation necessary! However, we are sure that you will find that if we charged you twice the price for the book, it would still be the **INFORMATION VALUE** of a lifetime! Order your copy today by calling toll-free (800) 222-5993, or mail the coupon below.

■ **YES!** Please send me the information value of the year, *The Coin Dealer Newsletter: A Study In Rare Coin Price Performance, 1963-1988!*

Send me _____ softbound copy(s) at \$34.95 each, and _____ hardbound copy(s) at \$49.95 each. Please add \$2 per order for shipping and handling.

Enclosed please find cash, check, or money order. Or charge to: ☐ Visa ☐ MasterCard ☐ American Express. CDN-89

Sight-Unseen Bids And Their Role In The Marketplace

Is the *CCDn* "a guide for wholesale market levels?" We wish the answer was as straightforward as the question. **The Bluesheet reports the highest sight-unseen Bids for certified coins recorded across the nation** (as opposed to Greysheet Bids, which are for sight-seen, raw or slabbed coins). We do not maintain that these Bids are always high enough to actually buy coins; in fact, our observation (often reported in our commentaries) is that most dealers have to exceed *Bluesheet* Bid for most of their purchases.

So, is this the "wholesale market"? Maybe, because implicit in the marketing strategy of slabbed coins is their ability to trade **sight-unseen**. To that end, the highest sight-unseen Bid could be considered the bottom of the actual range of purchasing prices, the starting point for negotiations; or, it might be considered **the wholesale market of last resort**, when quick cash is required. And again, the sight-seen price will be higher; dealer uncertainty over the aesthetics of a sight-unseen coin means Bids low enough to prevent distress regardless of the coin they may receive.

Some dealers have voiced concern over customers who expect to buy coins at *Bluesheet* levels. We see nothing wrong with a customer *seeking* the lowest possible price; that is the same right that dealers maintain for themselves. If the dealer is unwilling to sell at those levels (as we can well imagine he should be), then the customer has the right to **try to obtain** the coin elsewhere. If he cannot (likely, for the same reasons), then the customer must accept the fact that he must pay some "premium" over *Bluesheet*.

Since America seems determined to have a service economy, it is perhaps

relevant to ask exactly what service the slabbed dealer is expected to perform and for which he has a right to be compensated. From the buyer's perspective, when purchasing "generic" slabbed coins that exist in some quantity, he is no longer "purchasing" the expertise of the coin dealer from whom he obtains the slab; he may no longer regard the dealer as a numismatist, but rather as the marketing arm of the certification service. The buyer may be willing to pay the extra \$22 for their opinion, but he doesn't want to pay another middleman for 'no services rendered'. A natural consequence of the slabbing revolution will be the narrowing of margins.

But what if your customer should run into a dealer willing to sell at *Bluesheet*, such as one of the several we encountered at Long Beach who were willing to discount some coins? What then is the coin worth? That is a question that the market will have to answer for itself. But we will offer a few suggestions why a dealer might sell below the highest sight-unseen Bid: not all dealers belong to the teletype systems, go to all the shows, or know all the dealers, so they may not know who the highest Bidders are; they may not have that information at that show; they may not want to do business with the high bidder; they may be a **producer/manufacturer** of slabs (buying a group of MS-64's, hoping that some will make MS-65 — a few hits, and the whole deal is unloaded for a quick profit); or the dealer may need to raise quick cash. There is no trick to buying the occasional coin under *Bluesheet* Bid; but to do so consistently? There are few if any dealers who can claim this level of luck or skill, and it is virtually impossible for the collector or investor.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. *CCDn* Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CERTIFIED COIN DEALER

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. IV No. 13

March 31, 1989

Single copy price \$3.50

Frenzied Bidding Creates Thousands Of Plus Signs

Bidding in the certified market continues strong and active, with consistent upward movement. Auction prices are also continuing to set new records, and the ability of the market to absorb the deluge of auctioned material is most impressive. The bullish nature of the market is beginning to give dealers real confidence that we are indeed in the early stages of a massive rally.

Again, the strength of the market leans towards the higher graded material, as the demand for "the best" seems to be insatiable. Commemoratives are advancing solidly, and the Dollars are being led by the Deep Mirror Prooflike pieces. The Type coins are firming nicely in the lower uncirculated grades. Gold is relatively steady, with action at these levels. Buffalo nickels, Mercury Dimes, Walking Liberty Halves, and Proof Singles overwhelmingly show plus signs. This market is strong!

The future of numismatics may well be big money that stays in the coin market, but moves in and out of specific areas. This will keep the dollars in our little corner of the larger financial markets, but might exacerbate the volatility of certified material. Markets will move up quickly and sell well in excess of Bid; just as suddenly, the market could reverse as profits are taken, and those particular coins will sell at discounts as the Bid falls dramatically. There will be few boring moments in the rare coin business in the nineties, and it will be no place for the "faint of heart". But there will

certainly be lots of buying opportunities for dealers and collectors.

Collectors, investors, and dealers will all need to be acutely aware of the market, both tone and tenor, and try to stay ahead of the price swings. Unfortunately, the information overload possible with computers and more "efficient" communications can encourage over-reaction as dealers vie to be the first to detect a market reversal. One dealer accidentally puts up a low sell due to clumsy fingers on his keyboard; another sees it as an indication of that area peaking and quickly dumps his inventory at a lower price; and a downward landslide starts. Volatility can be a self-fulfilling prophecy.

The collector in the market for the long-haul will have no choice but to avoid the rapidly rising areas and buy in the cool areas (assuming he can find some!). Investor - collector competition for coins may become a non-issue, as collectors of quality coins reap substantial profits by selling into the investor market. Collectors who are still trying to assemble collections will either have to face the higher prices for the "investor-grade" coins, or discover for themselves that some really nice MS-62 and MS-63 coins can be purchased for relatively little money. As the "ultimate consumer", the collector has the advantage of time on his side. Dealers may chase the rising investor market, but most will come back to their retail customers (or to the dealers who service retail customers) when they need to find a "buyer". The more things change...

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS

American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. **CCDN** Bids reflect 1987 and newer certified coins

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

GRAPHICS Shane Dowling

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

City _____ State _____ Zip _____

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Plus Signs Dominate Market As Most Grades Are Active

How can you tell when the market is *really* hot? Count plus signs? That will give you a rough idea, but you might be left wondering whether the increases are on the order of 5% or 50%. We have a simple and more reliable method of determining when the market is *really* hot: last week, despite dealer attendance at major shows and auctions, bidding activity remained quite strong. Of course, like so many other aspects of the coin business, this method of analysis has its limitations.

The problems of maintaining an active presence on the teletype systems can be especially difficult for the smaller dealers who travel. There are many major numismatic events on the calendar that simply require attendance; the one-man coin dealer can't be in the office maintaining his wire Bids while out traveling. When business is booming and the dealer has to spend increasing time "on the road" finding coins for his customers, he has even less time to keep his teletype bids up-to-date.

As computers become increasingly portable, hopefully the problem will become more manageable - the numismatist will be able to take his "office" with him. As software becomes increasingly user-friendly, the numismatist will find that he doesn't need to be a computer expert as well. Judging from the number of portable telephones already visible on the bourse floor, it may not be too many years in the future before computers become as ubiquitous as *Greysheets* and *Bluesheets* at coin shows.

In the meantime, dealers are enjoying the active market - if you measure enjoyment in increasing hours spent trading coins. The demand for the higher-grade certified coins continues unabated, with plus signs liberally spread across all of the charts. Dollars continue their upward movement, although the steadily increasing Bids for the highest-graded material haven't drawn that many more pristine specimens out of America's safe deposit boxes. Commemoratives are especially active above MS-64, and the gold issues are strong across all the uncirculated grades. Gold type coins continue strong despite gold bullion's lethargy, with active trading continuing at these levels. Type coins are still soaring, and the trend will probably continue for the higher grades as date collecting becomes prohibitively expensive for all but the most dedicated collectors.

It is difficult for dealers to accurately estimate what percentage of the recent increases is due to expectations of the tens of millions of new dollars entering the marketplace through the new limited partnerships. It is certain that the increased demand for the fixed supply of choice material will drive prices higher. To that end, higher prices in the marketplace will depend upon Wall Street's continuing favor - a curious dilemma considering the sometimes fickle nature of high-stakes investing. In the "olden days", dealers had to worry about actions that might upset collectors; now the emotions of another player in the market also have to be considered.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDn Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. *CCDn* Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CERTSALE® VI

Will Be Very Special!

IT WILL BE HELD ON MAY 2ND IN CONJUNCTION WITH THE "1989 HOWARD RUFF NATIONAL CONFERENCE FOR INDEPENDENT INVESTORS" AT THE ANAHEIM HILTON AND TOWERS, CALIFORNIA PAVILION.

- Thousands of hard asset investment minded prospective bidders will be attending the Conference, meaning that we expect consignors to receive *strong prices*.
- Consignment deadline of April 17th is only 16 working days before the sale, so *your coins are not tied up for a long time*.

CERTSALES® VII & VIII

(May 31st & October 4th)

WILL BE HELD AT UPCOMING LONG BEACH EXPOS ...
AMONG THE BIGGEST COIN SHOWS ANYWHERE!

- Expected *strong floor bidding* from 10,000 show attendees and hundreds of attending dealers, as well as thousands of active mail bidders on our mailing list.
- Consignment deadlines are just 3 weeks before each sale.

We offer *competitive commission rates, cash advances, and fast payment*.
And we can arrange for *Auction Express Service* for your uncertified coins.

CALL TOLL FREE (800) 235-6937 OR COLLECT (805) 962-3197
TO DISCUSS CONSIGNING YOUR COINS TO THE RUFF OR LONG BEACH SALE

Market Bulls Forward As Dealers' Bids Climb

Since hindsight is a favorite pastime of sports fans and investors (including coin dealers), let's take a look back into history - and remember, in this fast-moving coin market, last January is almost ancient history! Let's imagine that just six short weeks ago, you had adopted the strategy of becoming a coin investor instead of a dealer - *that is, holding your inventory instead of selling it.*

Now, you may have been thinking, with your greatly increased sales volume, that WOW, it's great to be a coin dealer; especially with prices continually advancing. In fact, over the past several weeks, many dealers have thrown "caution to the wind" and raised their Bids dramatically. In trying to fill their want lists, they have only succeeded in outbidding each other - at least for the moment.

A dealer could have had the following coins in inventory just six short weeks ago. Looking at the gains that could have been achieved from **holding** instead of selling (not to mention eliminating travelling expenses, etc.), makes **holding** pretty attractive. Only you know your margins and inventory turn rates, but it does give one food for thought.

Denomination	March 3 Bid	April 14 Bid	\$ Gain
1937-D 3-Leg Buff 5¢, PCGS-65	6,225	7,700	1,475
1941-S Walking Lib 50¢, PCGS-66	7,250	8,200	950
1944-S Walking Lib 50¢, NGC-66	3,300	4,350	1,050
1884-S Morgan Dollar, PCGS-63	10,000	12,250	2,250
1892-CC Morgan Dollar, NGC-65	5,200	6,100	900
Elgin Commemorative, NGC-66	2,375	2,900	525
Fort Vancouver Commem, NGC-66	3,230	4,150	920
Hawaiian Commem, PCGS-65	6,200	10,000	3,800

There is also a flip-side to this 'holding' approach to inventory - the other side of the coin, so to speak. With the market rising so rapidly, it becomes very dangerous to commit yourself to sell any coin at a specified price when you **don't** have the piece in stock. Dealers are starting to get caught short, when that "easy to locate" coin suddenly becomes very scarce or very expensive at the next coin show.

How long can this Bull Market run? We will let you know as soon as dealers stop buying, lower their Bids, or inventories back up. These signs of an oversold market become prevalent when all the buyers "suddenly" become sellers. With the increased volatility of the certified market, "suddenly" can be just that! There is no way to guess when the market will turn, or even, in fact, that it will turn - although history also teaches us that all markets do.

On the "+" side of a continued Bull Market, dealers point to several factors why this one may run a long while:

1. Inflation is again threatening.
2. Wall Street has entered the market in a significant way, bringing marketing expertise and fresh dollars.
3. An increased number of marketmakers, and more knowledgeable clients than were present in 1980.
4. More widespread knowledge of grading standards, and more consistency in grading throughout the industry.
5. A greater understanding of rarity, through the population reports of the certification services.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. **CCDN** Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MINT STATE TYPE COINS

Prices are for the most common dates.

If your coin will stand on its own merits regardless of the certified grade, a higher CDN Bid may be more indicative of current market value

6,318 " + " Signs Equal Degrees Of Heat In The Market

What's a rare coin worth? Plenty, judging from this week's upswing in Bids. It seems almost anti-climactic to simply say the market is hot. Even capitalizing, underlining or bolding doesn't do this market justice. This week's *Bluesheet* contains the greatest number of plus signs that we have ever put in an issue - and most of those + 's represent substantial increases.

So, what's **HOT**? Other than everything? The demand for the best, coins graded in the highest ranges, continues unabated across all series. While some of that demand is certainly from the "new money" coursing its way westward, much seems to be home-grown from the collectors who were there a year ago and will be there a year from now. Paying higher prices, most likely, but still there.

Commemoratives remain strong in the upper uncirculated grades, with substantial strength reaching into the MS-63 columns. Dollars continue to climb, although they still show "excessive" bidding on coins which don't exist. The ultra-high Bids on phantom coins may have the effect of "pulling-up" bids on the MS-64's and MS-65's, but still have not had much effect on the MS-61 through MS-63 pieces. The most common issues have been moving up slowly and steadily, and fewer large blocks have been trading dealer-to-dealer; presumably, the pieces are going to collectors instead of bulk assemblers. With abundant populations, these 'lower-grade' uncirculated coins will continue to trade at levels commensurate with widespread collector demand and equally widespread availability.

Mint State Type coins continue to show an astonishing number of plus signs in all metals; you would think the increases would become less surprising over

the length of this sustained market rise - well, they don't. Proof Type coins across all series are strong, with an encouraging number of plus signs in the PR-61 to PR-63 ranks. Proof Gold Types are strong in all grades. Later date Mercury Dimes continue a strong surge, with increasing interest in the 'lesser uncs'. Walking Liberty Halves continue to assert their strength, with bidding on MS-63's strong.

This issue contains the supplemental pages for several series and on these the plus signs are almost universal. Granted, four weeks have elapsed since we last published these supplementary pages, but the effect of such increases over only one month is staggering. Standing Liberty Quarters, a perennial favorite among dealers and collectors, are unanimously strong. Saint-Gaudens \$20's are up, although the pervasive plus signs don't seem to be a result of an increasing number of date collectors; rather, the increases seem to be a function of the *general demand* of dealers rather than the *specific demand* of collectors.

Of course, the increases do not mean that dealers can actually buy the coins at these new Bid levels. As has been the case in the past, dealers still have to pay a premium over Bid in order to secure a specimen. There is no news here, as dealer's Asks have risen right along with the Bids. If the Bid is \$100, sellers are saying that the coin 'must be worth' \$120, or maybe even \$140 sight-seen; if the Bid for the same coin rises to \$200, the coin 'must be worth' \$230, or perhaps \$250 sight-seen. The secret to getting top dollar when selling remains constant: Find the high bidder, show the coin, and begin negotiations. Conclusion? It's a whole lot better to buy at \$120 or \$140.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

CERTIFIED COIN DEALER newsletter

Dept. CCDn P.O. BOX 11099 TORRANCE, CA 90510

CERTIFIED COIN DEALER newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

MINT STATE TYPE COINS

Prices are for the most common dates.
If your coin will stand on its own merits regardless of the certified grade, a higher CDN Bid may be more indicative of current market value.

PROOFLIKE MORGAN DOLLARS

FL Dollars may be seen in the marketplace, but they are not as plentiful as the deep minted Proof Dollars. Proof Dollars are made in quantities less than 100,000 and are not available for sale.

Thanks A Million.

*The PCGS One Millionth Coin
1894-S Morgan Silver Dollar / MS-66*

PCGS was established to create a new standard for the rare coin industry in February of 1986. Our business principles were inspired by a genuine desire to preserve the integrity of the rare coin industry for collectors, investors and dealers, alike. Our objective was to revolutionize the rare coin industry . . . forever.

The certification of our one millionth coin on December 21, 1988, surpassed our greatest expectations, and symbolized a major milestone toward the achievement of that goal.

Today, thanks to your overwhelming acceptance and support, PCGS celebrates its third anniversary as the most successful grading service in the numismatic marketplace.

Precision third party grading, the PCGS guarantee of grade and authenticity, easy liquidity through the Ameri-

can Numismatic Exchange's electronic trading market, and consumer protection, are the advantages that have made PCGS *the* rare coin grading service of choice. In fact, PCGS clearly represents the lion's share of all certified coins currently traded.

In three short years, PCGS has certified 1,029,302 rare coins with a cumulative declared market value of \$934,678,164 through a network of 367 authorized PCGS dealers nationwide.

As PCGS focuses on the certification of our second million coins, we would like to express our appreciation to those in the numismatic community

who have helped us attain our success. We have worked very hard to earn your loyalty and respect. We are committed to continue to provide our valued clients with uncompromising quality and the highest industry standards for many years to come.

COMPARE FOR YOURSELF

Order One of Ours
And One of Theirs.
See If You Can Tell The Difference.

Compare the coins above. Same type of coin. Same numerical grade. Same protective slab. Different grading services. And what a difference in the price! Sure, PCGS and NGC apply stricter grading standards, and that may be fine for some dealers and investors. But is it really worth paying more than twice the price on the coins you want for your collection?

You Can Save 50% or More on Most NCI Graded Coins!

According to the *Certified Coin Dealer Newsletter* ("Bluesheet") which tracks prices for coins graded by the leading grading services, the wholesale prices of NCI graded coins regularly average **LESS THAN HALF** that of the coins graded by PCGS or NGC. But the actual quality of the coins is nearly the same. You might not even be able to tell the difference! So, you can save 50% or more on most of the NCI graded coins you buy!

NCI Is Your Assurance Of Value On Every Coin.

If you're looking for value, compare NCI, and surprise your eyes. You'll be delighted to discover how much further your coin-buying dollar can go...and how much more quickly your collection will grow!

announcing a proposal
for a new standard in service
for America's coin dealers

&

The *Coin Dealer Newsletter* has been commissioned to survey dealers' attitudes towards the creation of a new computerized numismatic network for telecommunications, pricing, and trading - a network to be managed by an independent, "third party": the *Coin Dealer Newsletter* senior staff and a professional team to be selected with one purpose - to serve **you**.

Why another network?

There has been increasing demand among dealers for a new, enhanced teletype network. A network that would feature:

- ★ Widespread ownership among coin dealers.
- ★ Enhanced messaging for directs and open communications.
- ★ The most complete listing of sight-unseen Bids and Asks for **all qualified certification services** in **NUMEX**, the Numismatic Exchange.
- ★ Management by the *Coin Dealer Newsletter* senior staff, directing professionals dedicated to your needs.
- ★ 24-hour system (active at all times), utilizing the latest in computer technology for ease of use.
- ★ Local Area Network supportable for multiple computers at your location.
- ★ Simple but strict rules embodying the standards of the numismatic community; binding arbitration for disputes.
- ★ Promotion of numismatics, the **NNN**, **NUMEX**, and its marketmakers.

We have prepared a pamphlet outlining the services to be provided by **NNN** and **NUMEX**. Please send the coupon below for an information kit.

**Please Respond
As Soon As
Possible!**

Market 'Mania' Depleting Supplies of Quality Coins

The Central States Numismatic Society show, in Overland Park, Kansas last week, provided innumerable examples of the trends in the current coin market. Dealer-to-dealer sales, which so often characterize the initial day's trading at major shows, lasted for three straight days. Many dealers bringing large inventories to the show saw the majority of their coins sold *before* realizing that there were few coins available for replacement purposes - at least not for less money than the sale they had just concluded. All this at tax-time, when the supply of money among buyers traditionally dries up - not this year, thank you.

So what are the drawbacks to this market? Dealers are complaining of the lack of fresh material. They need the fuel to keep the fire burning; even with all of the coins brought to auction in the past year, the dealers **NEED** more supply. Dealers are routinely paying 20% to 30% over Bid to buy the coins they are afraid will only cost them more tomorrow; there seems no rush to increase Bid (although it continues to rise steadily) to meet the market, because the sellers will still want their premium over the new higher Bid.

The value of sight-seen transactions and the premium commanded in such sales continues to be astounding. An 8-piece 1876 Proof set (Trade Dollar, Half, Quarter, Twenty Cents, Dime, Nickel, 3¢ Nickel, 1 Cent R&B), with all coins graded PR-65 by PCGS, traded dealer-to-dealer at the show at a 75% premium over Bid.

A pre-CSNS auction, held by Slab Sales, Inc., was their second 1% commission sale. The growing success of such *slab only* sales, as presented by Pacific Coast Auction Galleries, Slab Sales, and others, just might change the nature of coin auctioning. Some of the differences may be: all slab coins, presented with

a minimum of cataloguing; consignments accepted up to two weeks before the sale; last-minute catalogue preparation and express shipment of catalogues to *known-buyers*. Whether the lower commissions can be sustained will have to be seen; they provide a mighty thin margin against the one bad-check that is bound to come along sooner or later. In the short term, substantially reduced commissions would seem to benefit everyone *except* the auctioneer. The issue of brief descriptions is also interesting. After all, the entire point of a certified coin is that you shouldn't need any descriptors - no "especially nice for the issue", or "better than average strike". Even the ubiquitous "one of the finest known" has been replaced, or at least modified into the new "only 5 graded higher by PCGS and NGC". One cannot help but think that such catalogues will make mighty dry reading indeed in the future.

Many of the Slab Sale coins sold for a substantial premium over Bid, demonstrating again the strength of the sight-seen market; a few of the coins were rumored to be candidates for resubmission.

Denomination	Certified Grade	Price Realized	Premium Over Bid
1864 Half-Dime	NGC-66	\$ 10,605	123%
1923-S Buffalo Nickel	NGC-66	\$ 16,665	28%
1830 Bust Dime	PCGS-65	\$ 17,170	89%
1892 Barber Quarter	PCGS PR-67	\$ 13,383	34%
1880 Morgan Dollar	PCGS-64 DMPL	\$ 4,040	367%
1893 Morgan Dollar	NGC PR-67	\$ 39,895	49%
1894 \$20 Gold	PCGS PR-65	\$126,000	40%
1901 \$20 Gold	PCGS PR-64	\$ 41,410	27%

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 350 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 300 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. *CCDN* Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Rare Coins The Hottest Game In The Country

How do you answer the question, "Are rare coins a good investment?" to a new client when he comes into your office? In today's type of market you don't have to say much, just let the numbers speak for themselves. Since the beginning of the year, a multitude of issues have risen quite dramatically. And of late, plus signs have literally covered the charts within these pages. But, how does your prospective client know the market will continue to perform the way it has after he jumps in? As with any proposed investment, future profits are based on supply and demand. Currently, the supply of rare coins is at an all-time low, while demand (and money supply, that which is available for discretionary or investment spending) is at an all-time high. There is no guarantee that this will continue at the current pace, or even at a 10% to 20% rate per year. However, past experience tells us that markets of this type may continue "bullish" for as long as two years or more.

One of the biggest concerns that dealers have is that this market may be moving too fast to sustain such a long run of profitability. But others answer by saying that the limited supply of quality coins is forcing buyers to look at the next available grade in order to fill extensive want lists. This fact, combined with the "fresh money" (Wall Street and Limited Partnerships) that has entered the market could fuel this upward cycle for some time to come.

In order to show your clients some of the dramatic gains that coins have made since the first of the year, we have prepared a chart listing some specific issues. However, what good is a chart as a sales tool if it only shows the most dramatic gains for coins which haven't been graded, or, at best, there are just one or two coins available. Therefore, the following chart will list the number of coins graded

(according to the latest available figures) along with a comparison of the Bid prices.

Denomination	No. Graded	1-6-89 Bid	5-5-89 Bid
Lafayette PCGS-65	24	\$10,000	\$16,250
Alabama 2x2 NGC-64	47	1,400	2,750
Albany NGC-65	130	850	1,235
Delaware PCGS-65	292	960	1,450
Grant Half PCGS-65	148	1,560	2,700
Maine NGC-65	43	1,700	2,300
Pan-Pac \$2½ PCGS-65	110	6,100	9,650
Grant w/star \$1 NGC-65	38	4,400	7,600
1878-CC \$ PCGS-65	96	2,660	3,710
1881-O \$ PCGS-65	34	2,260	4,710
1885-CC \$ PCGS-65	337	1,120	1,580
1921 Peace \$ PCGS-65	65	2,130	4,255
1926-D \$ PCGS-65	112	1,410	1,855

Of course, these are just a few examples of the many thousands of issues which have increased markedly over the last four months; however, the most important aspect of this chart that you should point out to your potential client is: These coins have fairly large populations available, therefore, it is possible to assemble portfolios of existing coins which have the potential for increased growth.

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 400 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS

American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. **CCDN** Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

Thanks A Million.

*The PCGS One Millionth Coin
1894-S Morgan Silver Dollar / MS-66*

PCGS was established to create a new standard for the rare coin industry in February of 1986. Our business principles were inspired by a genuine desire to preserve the integrity of the rare coin industry for collectors, investors and dealers, alike. Our objective was to revolutionize the rare coin industry . . . forever.

The certification of our one millionth coin on December 21, 1988, surpassed our greatest expectations, and symbolized a major milestone toward the achievement of that goal.

Today, thanks to your overwhelming acceptance and support, PCGS celebrates its third anniversary as the most successful grading service in the numismatic marketplace.

Precision third party grading, the PCGS guarantee of grade and authenticity, easy liquidity through the Ameri-

can Numismatic Exchange's electronic trading market, and consumer protection, are the advantages that have made PCGS *the* rare coin grading service of choice. In fact, PCGS clearly represents the lion's share of all certified coins currently traded.

In three short years, PCGS has certified 1,029,302 rare coins with a cumulative declared market value of \$934,678,164 through a network of 367 authorized PCGS dealers nationwide.

As PCGS focuses on the certification of our second million coins, we would like to express our appreciation to those in the numismatic community

who have helped us attain our success. We have worked very hard to earn your loyalty and respect. We are committed to continue to provide our valued clients with uncompromising quality and the highest industry standards for many years to come.

Common Dollars & Gold Following Lead of Rare Coins

The fervor of the marketplace is taking its toll on supplies of quality coins. This will come as no surprise to veterans of previous bull markets, when suddenly it seems that there are no quality coins to be found except at really **BIG** prices. The strength of the market is especially apparent in the growing demand for the 'generic', 'bread & butter', 'lesser unc' coins - the common date MS-62, 63, & 64 Morgans and Saint-Gaudens. These coins (by any name), which could barely be given away three months ago, have seen staggering increases.

Issue	28 April Bid	12 May Bid	% Increase
Morgan Type, MS-63	57	83	46%
Morgan Type, MS-64	110	169	54%
St.-Gaudens Type, MS-61	490	535	9%
St.-Gaudens Type, MS-62	530	620	17%
St.-Gaudens Type, MS-63	750	935	25%

The current market's capacity for absorbing auction lots seems almost unlimited. And the quality auction lots continue to appear in record numbers. The 1989 G.N.A. Sale will be presented by Mid-American Rare Coin Auctions, May 26-27, in Atlanta. The 1747 lots include strong selections of both certified and 'raw' coins, including some real powerhouses: 1903 Indian Cent, PCGS-66; 1872 Shield Nickel, NGC PR-66; 1916 Buffalo Nickel, PCGS PR-66; 1890 Seated Dime, PCGS PR-66; 1899 Barber Dime, PCGS PR-66; 1942 Walking Half, NGC PR-66; 1881-CC & 1883-CC Morgans, both PCGS-67; 1899 Morgan PCGS-66,

DMPL; 1851 \$1 Gold, PCGS-66; 1880 \$1 Gold, PCGS-66; 1914 \$2½, ANACS MATTE PR-66; 1915 \$2½, PCGS PR-66; 1893 Isabella, PCGS-66.

On May 28, Superior Galleries starts another marathon, in Beverly Hills, with two of the three catalogues offering U.S. coinage. May 28-30 will be the Casterline, Hall & Matthews auction, with nearly 4,000 lots of U.S. material, including another spectacular offering of half cents and large cents. While containing some certified gems (including a 1934 Maryland, NGC-66; 1922 Grant \$1, No Star, PCGS-66; 1851 \$1 Gold, PCGS-65), the bulk of the material is uncertified. On May 30, Superior follows with the Worrell Family Collection, with 674 premium quality lots, and especially strong in early and proof gold. With few of the coins from these two sales slatted, the certification services should be kept busy for awhile.

Commemoratives are strong in MS-64 & above, with additional plus signs percolating into the 'lesser' uncs. Virtually all Gold commemoratives are up, although the NGC side of the chart does not fully reflect the active market bidding for these always desirable specimens. Mint State Type coins are strong in all grades. Proof Type coins are showing some plus signs in MS-61 & 62, with nearly unanimous increases in the higher grades. Buffalo Nickel increases are concentrated in the MS-64 through 66 grades, while the activity of Mercury Dimes is scattered (with increasing activity in the later dates). Walking Liberty Halves are up in MS-63 and above, with the 'lesser' uncs remaining steady. Gold is **up**, and Proof Gold is **UP**. As in **UP**! And if you have any questions at all about the strength of this market, you have only to refer to the Morgan and Peace Dollar charts.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 400 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. **CCDN** Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

May 19, 1989

Single copy price \$3.50

Some Generics Dip Rarer Coins Continue Climb

It's amazing how an up-market affects the players - everyone Bids highly visible prices, with all trying to outbid the last guy. And when the market reverses? Even for just a moment? All of a sudden, the bidders are all saying "What will these cost?" as they test the market for a new bottom.

This week, the generic, 'lesser uncs' got a real testing. MS-63 Morgans, up from \$83 last week, were Bid \$84 Monday Noon; \$74 Tuesday Noon; and \$74 on Wednesday. MS-64 Morgans, up from \$169 last week, followed the same pattern with Bids at \$177, \$165, and \$158 on Monday, Tuesday & Wednesday. This should be sufficient volatility for even the most devoted theme park fan.

Common date and grade Saint-Gaudens Double Eagles are likewise down under the sustained pressure of sales at lower levels. At least one major wholesaler was consistently in the market selling; in Wall Street terms, this would be known as "taking profits". These price adjustments, while reminding dealers of the volatile nature of the certified market, are not considered due cause for alarm. The *true* rare coins are continuing to plus solidly, as even a cursory glance at this week's charts will reveal.

It might even be considered a "+" for this bull market to make occasional adjustments - as long as the decreases are neither major nor sustained. The only real problem with the recent run-up and drop in generics is that these are often the coins by which new collectors enter the market; and especially through which investors get their first exposure to the market. Sure and steady would make a better selling point for most. Of course, there are those who really do enjoy the roller coaster; but most will agree that the longer the climb before the first drop, the more time you have to think about the thrills to come.

Buffalo Nickels are steady or up in MS-65 and above; MS-63's and MS-64's are steady, but seem thus far to lack the flash that this market is demanding for its super-stars; at least one contrarian dealer thinks this represents a solid buying opportunity. Mercury Dimes are strong in all grades in the later years, with scattered plus signs among the earlier issues. Just as beauty is in the eye of the beholder, collectors of Standing Liberty Quarters will have different reactions to the near unanimous plus signs on Page F; collectors who have just begun purchasing will doubtless be a little less excited than their more complete counterparts. Walking Liberty Halves are strong in MS-63 and above, with many of the type pieces getting good play.

Morgan and Peace dollars in higher grades continue their "magnificent" climb; if these prices hold or climb, the most popular U.S. coin will become even moreso. Buying opportunities in the lower grade uncs were thought to have lessened with the plus signs of recent months, but this week's minuses may give the laggards another opportunity - this little dip may still prove just a market respite before another buying onslaught. Bidding on Deep Mirror Prooflikes has finally stalled a bit, but there is still plenty of demand in the marketplace - judge from the number of plus signs and the jumps on the Prooflike charts. Silver Mint State types continue to lead that segment, and the Proof Type coins continue strong in all grades. Mint State Gold Types in higher grades are continuing to ignore the gyrations of the gold market as they climb even higher; Proof Gold Type is also solidly up. Silver Commemoratives in MS-64 through MS-66 are continuing their climb, while Gold Commems are proceeding in all grades.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 400 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins

Client orsight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep-mirror Proof. Bids for P.L.s are usually lower than for DMPL, but command some premium over the P.L. at retail.

“Low Population Headquarters!”

**We are pleased to present you the opportunity to acquire the following
superb gold and silver type coins.**

**1874 Seated Liberty Dime with Arrows
PCGS PR 65 \$25,000.00**

One of only five coins graded proof 65, none have been slabbed in over a year!

**1874 Seated Liberty Half with Arrows
PCGS PR 65 \$36,000.00**

*One of only six coins graded proof 65 and the only example available in
today's market!*

**1803 Drapped Bust Eagle, Heraldic Reverse
PCGS MS 64 \$69,000.00**

*A Superb coin in all respects, completely devoid of all adjustment marks,
copper spots, etc. finest example on the market today!*

**1879 Flowing Hair \$4.00 Stella
PCGS PROOF 64 \$89,000.00**

A Super high-end borderline 65, finest example available on the market today!

We are buying!

*We are always looking to pay top dollar for your low population
rarities. Please call for our immediate quote!*

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Hugh Sconyers / Kevin Lipton

Steam-Roller or Roller Coaster? Dealers Watching Market Movements

Are you a believer? Do you think that the current increases in rare coin prices, as enormous as they may seem, are just a hint of things to come? If you are not convinced, why not? If the rare coin market continues strong through Long Beach (the thrice-yearly bellwether show), will you then believe that we are in a "bull" market? What does it take to define a "bull" market in coins? 50% increases in Bids? 100%? 150%? Or does it depend more on time? A solid year of price increases? Two solid years?

The problem for most skeptics is that we have all seen too many false starts, where everyone became excited for a few months, only to see the steam run out of the market. Last summer was the best example of this, with 1988 showing the hottest summer activity ever recorded in the coin industry. All summer long, dealers put off their vacations waiting for the "summer doldrums" to begin. However, the "doldrums" waited until the second day of the August ANA before revealing that the market's strength was exhausted, as auction bills helped create a shortage of cash, and many dealers were heavy in inventory. But even then, some rare coins were still bringing BIG money.

After the ANA, every time the market tried to forge ahead, "another" major auction took place. Each featured major numismatic rarities and quality coins, and although they continued to bring big ticket prices, the marketplace's

absorption trouble lasted as long as the "cash crunch" continued.

Into 1989, new factors greatly increased marketplace liquidity. Wall Street's promise of an endless supply of money began to materialize. Investor activity again began supplanting collector activity as the mainstay of the market in higher grade certified material, pulling many coins out of the market. The auction "problem" became not enough coins, not insufficient cash.

Since rare coins fall well within the definition of a "luxury" item (although we know more than a few collectors who consider them "necessities"), their value is absolutely a function of demand. If demand increases, price increases. Coin values are also relative (at least above the bullion "floor" level). There is no intrinsic reason why an MS-65 Morgan should sell for \$50 or \$500 or \$5,000. With a relatively fixed supply, lowered demand will cut prices; increased demand will raise prices; and greatly increased demand will cause them to skyrocket.

Many dealers are looking carefully at the Long Beach-ANA stretch, before they place their bets on the outcome of the race. And fortunately, rare coins allow you to place your bets at any time - as long as you are willing to forego the really big pay-off. Are you a believer yet? We'll let you know what the dealers think the odds are after Long Beach.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. coins. Located in Newport Beach, CA. You must submit coins through authorized PCGS dealers. Contact PCGS at (714) 250-1211 for a list of authorized dealers (currently over 400 throughout the U.S. and Canada). PCGS has more than 15 graders on their staff and a minimum of three must agree on the grade of a coin before the final PCGS grade is determined. The service costs \$22 per coin, plus postage and insurance, no matter how valuable the coin is. When graded the coin is sonically sealed in an inert, hard plastic container and returned to the customer.

Many PCGS dealers make sight unseen bids for PCGS coins. PCGS identifies color on copper (red, red and brown, or brown), full bands on Mercury Dimes, full head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars. PCGS has a comprehensive grading set which includes most major series. PCGS publishes monthly population reports. PCGS has a cash-backed grading guarantee.

ANACS American Numismatic Association Certification Service: First authentication service, established by the American Numismatic Association in 1972 (to which grading was added in 1978). The ANA is a nonprofit, educational organization chartered by Congress. ANACS proceeds are channeled into ANA membership services. ANACS renders independent, third-party opinions that are free of market influences. The Service employs a team of authenticators/graders, three of whom must agree to determine a final grade. ANACS utilizes nearly 100 expert numismatic consultants to reaffirm authentication and grading opinions.

The ANA Certification Service issues certificates displaying color photographs of the obverse and reverse. Luster, surfaces, eye appeal and strike are described on the back of the certificate. They do not identify color (red, brown) on copper, full split bands on Mercury dimes, full head for Standing Liberty quarters, or prooflike on dollars.

CCDN Bids reflect 1986 and newer certified coins. Certificates may not have any negative comments to command bid prices. ANACS is currently working on the establishment of grading sets for every series possible. Costs range from \$10 to \$20, depending on the type of service rendered. On request, ANACS will certify coins in sealed holders. Contact ANACS at 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 719-632-2646. Due to current trading volume, ANACS coins will only be listed once a month.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Single copy price \$3.50

Market Moves to Lower Levels Softness or Corrections or Adjustments

The adjustments which began in generic coins have now spread to the entire market. At Long Beach, many generic coins – meaning, those coins with prominent populations relative to others within a series – were trading consistently at 10% to 20% off Bid. Thus, the resultant minus signs on generics represent a very active seller's market at lower levels.

This, in turn, caused the high Bidders to reassess their positions in rarer coins and lower their Bids. Quite a few dealers had been expressing concern about the rapidity of the recent run-up in prices, and more than a few were actively watching for *any* sign of frailty in the market. All it took was a few marketmakers withdrawing their Bids from the computer systems, and others reacted by lowering their Bids. Add a few dealers and investors taking profits and you have the necessary ingredients for an overall market correction.

It works this easily. The following Bids are recorded for a coin: A @ \$950; B @ \$1,000; C @ \$1,025; D @ \$1,400; & E @ \$1,425. In the rising market, D & E were only concerned with each other, leading the pack as they leap-frogged in the continuing attempt to be high bidder. If the market stalls somewhat, E quickly withdraws his Bid. D now finds himself as high-bidder, some 38% over C; an astute businessman and not one to give money away, D quickly lowers his bid to just over C. End result? Our coin has dropped some 40% without any sales taking place.

The cumulative effect of thousands of such decisions means an overall lowered market, as many marketmakers react to their own uncertainty by removing their Bids from the visible marketplace. Added to the earlier trend of profit-taking in the generic issues, and you have a situation which easily leads to over-correction. How far the correction goes depends upon the actions of dealers in *selling* now. Dealers are still

asking top dollar for their rare coins, and if they don't lower their Asks and chase the market down, the Bidders will have to come back up if they want to fill those want lists.

The curious thing about this correction is that dealers continue to report plenty of orders that need filling. The high Bidders may be dropping their Bids, but they are still actively looking to buy coins – just at lower levels. There is still big money out there waiting to be spent – just at lower levels. This can spell increased profits for the dealer if the market quickly rebounds, or increased savings for the buyer if it doesn't. The dealers with strong cash positions are stepping forward to take advantage of any other dealer's panic or cash-flow problems; it remains to be seen if they will be successful buying at the lower levels.

Needless to say, the large numbers of minus signs in the 66 & 67 columns don't mean all that much. In the majority of cases, especially in 67, no coins have been graded anyway; so who cares if dealers remove these Bids from the system because they don't have the time for a more systematic price analysis? They probably shouldn't be bothered trying to guess what a 67 would be worth (when the finest known specimen is an MS-65) until one is graded, if ever.

So, the volatility of the computerized, certified market has again been demonstrated; and the market could be all **PLUS** signs again by the time this column is written next week just as easily as a further drop. We know better than to make predictions, but we will point out that with this kind of volatility, nothing should be surprising. Fortunately, the coins themselves haven't changed, and the collectors are still out there looking to buy them. Dealers would do well to remember that.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins **must** be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$22 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Bids Sink Further As Dealers Wait Out Correction

This is one of those markets that numismatists will talk about for years to come, as the upward volatility that characterized the first six months of 1989 turned on the proverbial dime to begin a quick decline. It will come as no surprise to dealers active in the marketplace that Bids for high grade material have dropped. Anyone who has not been in the marketplace during the last three weeks, and who is trying to make sense of it by just looking at plus or minus signs, is probably going to come away quite confused — especially if they are looking at the minus signs in the MS-66 & MS-67 columns. These Bids for the super-premium coins may have free-fallen, but since most of them are for coins that don't exist, the dire results are psychological, not financial. And don't overlook the charts of several series dominated by plus signs.

Yet, since coin prices are determined by demand, the state of mind of the market players becomes very important. The emotions coloring hesitancy to sell just four weeks ago because the market was going up 10% per week (on many coins) turned into uncertainty about direction just before Long Beach, and now has become the desire for quick sales before the market drops further. Self fulfilling prophecies are hard to argue against.

While the market was on the way up, actual sales in the marketplace were taking place well in advance of Bid as dealers wanted to anticipate the benefits of next week's increases; curiously, sales in this market are also taking place in advance of Bid. The Bid has dropped, certainly, and the sales are taking place at lower levels, but sight-seen sales are still taking place at a premium to Bid. In fact, in many cases, the premium being paid over Bid has increased, as dealers have dropped their sight-unseen Bids to very low levels in the hopes

of snagging a few cheap buys. Such Bids have little to do with the current market value of the coins. This seems like an appropriate place to again remind readers that the "Bluesheet" reports the highest national sight-unseen Bid, and does not represent what the coin may actually be worth to sight-seen Bidders in the marketplace.

An example illustrates the point. The 1892-S Morgan Dollar, a genuinely rare coin in Mint State (with only 11 specimens graded by PCGS), actually placed in MS-61, MS-62, & MS-63; in MS-64, the sight-unseen Bid declined from \$64,000 to \$32,500!; in MS-65, Bid declined from \$110,000 to \$75,000; in MS-66, Bid dropped from \$165K to \$115K; and in MS-67, Bid dropped from \$210K to \$150K. Has the value of that PCGS-65 actually dropped \$35,000? Or \$20,000? Or even \$10,000? If the owner of that one coin needed to sell today, he could do so to the \$75,000 Bidder, sight-unseen, no questions asked, and check to follow within seven days. We have likened such Bids as the buyer of last resort, when the seller cannot be bothered going into the marketplace to find the highest sight-seen buyer. So what is the MS-65 worth? The answer is when do you need to sell, and to whom do you wish to sell it? We are willing to put forward a small wager that it wouldn't be to the \$75,000 Bidder.

Of course, sales of rare coins are continuing to take place, but quick sales into the declining market are only helping dealer cash flow and doing nothing to support the market, even at the lower levels. It is unfortunate for heavily-inventoried dealers that real transactions are starting to occur at the new lower levels.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$22 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective on one or both sides with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually much lower than for DMPL, but command some premium over non P/L strikes.

THE COIN INVESTOR'S REPORT

The Coin Investor's Report is the FIRST graphic analysis presented in a book form on Morgan and Peace dollars; Gold Type coins; Silver Type coins; Commemoratives and Walking Liberty half dollars.

Some of the inside information you can learn from these reports include:

- Price movement on each coin listed on month by month basis from 1987 to 1989
- Each coin in the grades listed is rated as to its future investment potential
- The number of coins graded by PCGS is listed in grades MS-65 to MS-63

Information you can also learn:

- Which coins are underrated and undervalued
- Why certain dates in specific grades should be selling for 10 times their current value
- Which coins and grades offer the greatest investment potential

EXCLUSIVE BLUE SHEET OFFER

To introduce you to these Exciting, Informative, Investment Reports we have an exclusive offer ONLY to readers of the Blue Sheet. We will send The Coin Investor's Report on Peace Dollars, a \$29 value, absolutely FREE! To qualify for this free report all we ask is a copy of an invoice totalling over \$1,000 made within the last year. LIMITED to the first 100 responses, no dealers please.

Privied information, secrets and opinions on the most important coins being purchased as investment today CAN be yours. The Peace Dollar report we will send FREE!

☐ **YES!** I want to receive the Coin Investor's Report on Peace Dollars, a \$29 value, FREE. I understand this offer is LIMITED to the first 100 responses and I am enclosing a copy of a coin purchase of \$1,000 or more within the last year to qualify for this offer.

☐ I am interested in the other reports, please send me information.

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Vol. IV No. 25

June 23, 1989

Single copy price \$3.50

Good News, Bad News, No News

Several times in the past we have written about the varied ways that certification services, and specifically slabbing, have changed the market. Implicit in the concept of a slab is the possibility of **sight-unseen** trading in the slabs; if you don't have to view the coin to be assured of its grade and appearance, you can safely Bid on it without inspection. You may Bid more *after* an inspection, but you feel safe at some lower level operating at a distance. An unintended by-product of sight-unseen Bidding, which in theory *should* have stabilized the coin market, has been *increased* volatility.

The good news, even in the current market down-turn, is that there is a greater consensus on accurate grading in the coin industry than has ever existed before. The slabs have served as standards; not perfect standards, to be sure, but ever so much better than the "random walk" which grading used to take. And equally good news is that collectors are participating as strongly as ever in the marketplace. The results of last week's auctions in New York, held by Bowers & Merena and Stacks, amply demonstrated that the collectors are alive and financially well. Some may have been temporarily driven to the sidelines by the incredibly rapid increases during the first 2 quarters of 1989, but they are still hanging in there buying, even after the rapid decline (and some, no doubt, because of it).

Another piece of good news is that a large portion of the minus signs have occurred in the MS-66 and MS-67 columns, so very few people have

even theoretically lost money. Theoretically? There are only two types of people who could care about those specific minuses, since in *nearly all* cases the coins don't exist. So who would care? An investment advisor who judiciously placed some of these beauties in a model portfolio, and who has now seen his spectacular pseudo-profits disappear. Secondly, just maybe the holder of one of the very few real coins to bear this exalted grade - maybe it was purchased because they wanted to own the best, and they still do own the best. They may not be able to sell it (without a loss) sight-unseen to a low-ball bidder right now, but then again, they probably aren't interested in doing so anyway.

The bad news is that there is some real damage being inflicted on dealers right now, especially those with larger inventories or who depended on sales to other dealers. Far too many dealers are sitting on the sidelines, either with their Bids removed or substantially lowered.

The no-news is that the same bidders who were out of the market last week are still out, and the loss of their Bids has helped cause a general market decline. Until the mood of optimism returns, the removal of Bids from the marketplace will continue to ripple its effects on the other coins, with a general lowering of prices. The buyers still present certainly aren't going to complain about this; however, the dealers with the largest inventories stand to gain the most by maintaining their higher Bids.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins **must** be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible
bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit,
on a sight basis.

"I WILL GET RESULTS FOR YOU!"

Jim Halperin

Jim Halperin

"It is my firm belief that the foundation of numismatics is the true lover of rare coins, the collector. With a broader collector base within the ANA membership, everyone will benefit. Our Association will be stronger, more dynamic, and more responsive to members' needs. Our market will be more stable. And our hobby will enjoy a bright future of vitality and growth.

"The only way for the ANA to be effective is for collectors and professional dealers to work together in a spirit of mutual respect and cooperation. As a member of the ANA Board of Governors, I will work with my fellow governors, both collectors and dealers, to implement the following program. You have my word on it."

For Your Hobby

A campaign to include photographs of significant coins in school history textbooks. A touring museum exhibit of the finest and rarest coins, sponsored by the ANA.

Results: New, younger collectors will keep the hobby vital and growing for the future.

For Your Market

An ANA-sponsored dealer task force dedicated to generating greater interest in coin collecting among coin investors. A campaign to offer ANA membership to the mailing list of the U.S. Mint.

Results: A broader collector base means a more stable market.

For Your Association

A national public relations and advertising campaign promoting the hobby and membership in the ANA to potential new collectors. Expanded services for hobbyists.

Results: A more dynamic and responsive ANA means more value for your membership dues.

Jim Halperin (A.N.A. lifetime member #1306), is author of U.S. Coin Values and the N.C.I. Grading Guide and publisher of LEGACY Magazine. For over ten years, he has been a contributor to the Red Book, Blue Book, and the Standard Catalog of World Coins, and a consultant to ANACS and PCGS. He is founder of the Numismatic Certification Institute and has been a full-time dealer and collector of rare coins for over twenty years. Today, he is widely recognized as one of the foremost experts on U.S. coinage.

They're Back...They're Back Smattering of Plus Signs Hits Charts

Just when you thought it might not be safe to go back into the market, the charts in this week's *Bluesheet* are dotted with plus signs - and in the most important series: Dollars, Gold, and Type.

Now, we don't want to be accused of being Polyannas about the current state of the coin market; the last three weeks have amply demonstrated just how much the volatility of certified coins can **HURT** the entire market. One month ago, nearly every dealer was predicting an unending march upward; ten days later many wouldn't buy a coin unless they could pay half what it was worth. And it will probably take many months of the increases represented by this week's plus signs to make up for the ground lost during June.

For all that, the reappearance of plus signs is **GOOD NEWS**, and it comes at a time when needed. Like the fear that feeds on fear itself, the market leaders needed to stop the reverses. It was not so important, per se, that sight-unseen Bids dropped, since the Bid for a coin could, in theory, drop substantially without any effect on the actual prices that dealers would pay in the marketplace sight-seen. Even when Bids first began to drop after Long Beach (but before they plummeted), our information still showed most dealers in the market were still actively buying. The initial Bid decreases were viewed as a warning flag, and while panic is perhaps too strong a term to use, cautious dealers saw the warning flag and decided it was prudent to drastically lower or to remove their sight-unseen Bids from the marketplace. This had the effect of turning a minor correction into a major decline, as far as the Bids were concerned.

Unfortunately for the market, those dealers holding large inventories, and the faint of heart, the decline in Bids was followed by a decline in the actual price levels at which rare coins were selling. Perhaps this was an inevitable consequence of the drop in Bids, but only became serious when dealers who required the cash-flow were forced to sell into the apparently declining market. Such self-fulfilling prophecies only proved correct the caution of the dealers who created the situation through the removal of their Bids from the marketplace.

The plus signs are an encouraging sign that the active buyers in the marketplace have come to recognize that they are not going to be able to "pick-off" enough coins at their low Bids to fill the needs of their customers, and have had to raise the Bids to keep an adequate flow of coins coming through the door. Certainly, many dealers are still remaining tentative in their buying tactics; but others continued their buying during June - just at lower levels.

From the buyer's perspective, it would have been silly to buy a coin at \$1,000 when it could be obtained from a nervous seller at \$800, but the cumulative effect of such independent decisions could dissuade or delay the Wall Street crowd from further participation. In the meantime, coin wholesalers are reporting that some buyers are using the disruption in the market to run what appears to be a sight-seen approval service for their customers; they try to receive specific coins on 24 hour approval before committing to buy them, thus giving them the additional advantage of sight-seen at lowered sight-unseen Bid levels. I suppose that is why cash is still KING.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CCDn, albeit, on a sight basis.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Vol. IV No. 27

July 7, 1989

Single copy price \$3.50

Slow & Steady Progress Can Be Seen In Current Market

All signs from the marketplace continue to be positive, as plus signs dominate the charts again this week. The long "week-end" Holiday certainly did the market no harm, as dealers continue to increase their **sight-unseen** Bids in order to fill the continuing want lists of their customers. Although Bids for many coins are still lower than six weeks ago, marketplace values did not decline as precipitously as the underlying Bids.

Many of the current minus signs continue to be a result of lowered bidding support, rather than due to lowered sells; this again bodes well for a general firming of the market. Cash flow still seems to be dominating dealers' actions in the marketplace, whether buying or selling. A few minuses continue to result from lowered Bids on non-existent coins, a sign that several dealers pointed out as healthy for the real market. Dealers, especially those with a strong collecting base, are still expressing "Bullish" feelings about their segment of the market.

The degree of recovery in the uppermost parts of the certified market will soon become evident, as AUCTION '89's special offerings begin this week. Like the other "apostrophe" sales, it is almost too easy to wax enthusiasm, but what can you add to a decade of sales' successes approaching the \$100 million mark? And made up of the coins that numismatists dream about. Since the sale includes many of the "finest known", the degree to which marketplace values for such items has declined or risen should become

obvious. Of course, even pessimistic dealers expect to see record prices established. It is that kind of market.

One result of the post Long-Beach decline may be changes in the **sight-unseen** bidding system as we currently know it. Not that there is a problem with the convenience of being generally able to trust the grading of the major services - far from it, as they continue to grow in popularity. Rather, the problem may be with the other component of **sight-unseen** Bidding: The method and timing of payments. The two components work together; Dealer A is reasonably confident of the grade of the coin that he will be purchasing, and the seller is confident that Dealer A's check is in the mail. Implicit in the certified market has been the quick pay; indeed, the whole point of certified Bidding has *not been* "what is this coin worth in the real market?", but rather "what kind of cash can I get for this coin today rather than waiting to take it to the next coin show or convention?". What if the **sight-unseen** market does move to a 30-day payment plan from the de facto 7-day pay that currently is defined as "immediate"? There are bound to be evolutionary changes as the certified market matures, and this one may be real interesting to follow. As one dealer pointed out, "if I have to wait 30 days, I might just as well take the coin to the next show and sell for cash and carry". Stay tuned.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins **must** be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins

Client orsight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible
bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit,
on a sight basis.

Now available in one single volume is a distillation of data gathered over a 25-year period by America's leading source of coin price information: *The Coin Dealer Newsletter*! Market

closing prices are given year by year, 1963 to date, for all popular series, including silver dollars, gold, commemoratives, bullion gold and silver—you name it! Here in 527 information-packed pages is the most authoritative source in print for U.S. coin market data!

At your fingertips is a vivid record of the coin market, cycles, changes in popularity, changes in grading interpretations, and other events which have shaped the market. Year after year, this information has been used by dealers, government agencies, collectors, and investors—but **never before** has it been available all at once in a single volume. For just \$34.95 (softbound) or \$49.95 (limited hardbound) you gain a veritable **encyclopedia** of coin market information that cost MILLIONS OF DOLLARS to gather over a period of time! Indeed, this information cannot be duplicated elsewhere **FOR ANY PRICE!**

In addition, the volume contains market studies, articles, and commentaries by many of the best-

known authors in the rare coin field, those who have written "Monthly Summaries" over a long period of time. This book can make you a **MARKET EXPERT!** There is no better way to **PREDICT THE FUTURE** than to know what has happened in the past!

This immense book has been prepared in coordination with the editor and publisher of *The Coin Dealer Newsletter* and has been edited by Q. David Bowers.

GUARANTEE: After you receive your book, you have a full 30 days to be sure it is worth every penny of the price paid—and more—or it may be returned for an instant refund, no explanation necessary! However, we are sure that you will find that if we charged you twice the price for the book, it would still be the **INFORMATION VALUE** of a lifetime! Order your copy today by calling toll-free (800) 222-5993, or mail the coupon below.

GOLDTOWN

RARE COIN INVESTMENTS, INC.

1-800-237-6275

“Quality Never Goes Out of Style” - Or Demand!

In the Last 4 weeks the Rare Coin Market has Crashed and then Rebounded somewhat...

We feel strongly that the market has bottomed & rebounded enough to offer you a two-way **sight-seen** market in PCGS coins.

Now...Do you “Buy” or “Sell”? Goldtown is offering you a choice. On a **SIGHT-SEEN** basis. We will **Buy** your P.Q. coins at 10% over our ANE® Bid (market maker trading network) or **Sell** to you from our over “2,000 coin inventory”, at 25% over the ANE® Bid on the day you call. This offer is for *PCGS certified coins only* and is good from 7/7/89 to 8/1/89. After your check has cleared we'll send you your order & offer a **5 day return on a sight-seen basis.**

We make Bids and have inventory in the following areas:

DENOMINATION	EXAMPLE	BID	BUY	SELL
Morgan Dollars - MS63 thru 68	MS68	\$16,000	\$17,600	\$20,000
Silver Commemoratives - MS65 thru 68	MS65 Missouri	\$18,500	\$20,350	\$23,125
U.S. Gold Indians - 2½-5-10 MS64 thru 66	MS65 \$10	\$10,000	\$11,000	\$12,500

We Also Buy & Sell TYPE — PF MERC — PF WALKERS

When Calling ask for: Bob Higgins or Mick Millard or Craig Hively

GOLDTOWN

1880 North Tamiami Trail • Naples, Florida 33940

We attend all national and regional shows.

Summer Doldrums? — Not In The Auction Market

Have rare coin dealers become spoiled over the last two years with respect to the amount of business that takes place in a given period of time? A dealer recently called this possibility to our attention, and at first listen, we thought the comment reflected "sour grapes". But in thinking about the many ways that the market has changed during the past two years, we know better than to dismiss any assertions without some consideration.

Prior to these last two years, dealers were accustomed to what had traditionally been referred to as the "summer doldrums". This is the time of year when many people take vacations; dealers, clients, collectors, and friends all do the same. A natural byproduct was a substantial slowing of coin trading activities. However, last summer remained extremely active, which tended to "spoil" the dealers who benefitted from this unusual flurry of activity. This year, the coin business has slowed over the last few months due to profit-taking, a cash shortage, and any number of other reasons. This has caused some dealers to seek deeply rooted rationalizations for the market being somewhat weak. In fact, the real reason just might be that the "summer doldrums" are upon us again.

Of course, if you attended Auction '89 last week, you might have a hard time convincing anyone that the market is asleep or weak. More than \$19 million in just 2,000 lots of rare coins were hammered down, many at record prices. The 1804 Dexter-Bareford Dollar just missed becoming the first million dollar coin by a whisker, as the Bidder paid \$990,000. Of course,

the dealer/investor who was buying at Auction '89 is probably not short of cash after taking the wife and kids to the beach for a week.

However, there is no denying that "taking" nearly \$20 million "out" of the market at this time has helped weaken some of the Bids on less exotic material. This cash flow "opportunity", combined with the institution of some new rules on the major teletype service, has resulted in substantially decreased formal Bidding activity. The combination of fewer Bids, and those at lower levels, means a substantially reduced market. This should spell real OPPORTUNITY for the collector. Dealers need cash and have coins, and it doesn't take a numismatic expert to figure out what that does to the power position of the collector who has cash and wants coins.

One of the hardest disciplines to master is that of the "contrarian": Buying when no one else wants to buy and selling when everyone else is clamoring to buy. During the gold bullion boom of the early 1980's, dealers could count by the hundreds their customers who 'wished they had bought gold at \$400; then at \$500; then at \$600; and especially at \$800. And where were those customers when given a second chance to buy gold at reasonable levels? Being a contrarian is hard work, especially overcoming the emotional distraction of wondering what everyone else knows that you don't, which of course lies behind their decision to buy (or sell). If the herd moves, who is brave enough to stand apart from it? The numismatist who wants to maximize his profit.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating *the* standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

While Market Seeks Stability Collectors Search For "Deals"

While the biggest "news" in *slabdom* continues to be volatility, the charts this week show an interesting assortment of pluses and minuses. The pluses represent considerable stabilizing and strengthening of several key series. Gold Type coins are stabilizing nicely, with increased Bidding activity. Dollars are still a mixed bag, but are showing increased strength in the generic issues and lesser-uncirculated grades. Deep Mirror Prooflikes continue to show admirable activity - they started six months ago at a level commensurate with their rarity and climbed at a moderate rate with the rising market. MS-63 DMPLs and MS-64 DMPLs continued to show strength while other Morgans registered substantial declines.

The DMPL Dollars are a perfect example of a series that has tremendous appeal to both the collector and investor. An MS-63 DMPL is a nice, fairly dramatic looking coin. It is common in the obvious issues, so that anyone can easily afford a specimen; it is scarce enough in other issues to present the collector with a challenge in seeking different dates & mintmarks; and it has sufficient rarities to make completing a collection a whole-life challenge. These are coins whose low population figures accurately reflect their rarity and desirability.

For the collecting of issues such as these, the population reports issued by the certification services are a necessity. These reports continue to increase in value as ever greater numbers of coins are slabbed. However, like any guide, they must be fully understood to be used properly. The most obvious lesson is that low population statistics are not necessarily the only guide to a coin's rarity, at least not below MS-64. The reason for this is quite simple - the coins sent in for certification are not a cross-section of the population. Quite to the contrary. Dealers or collectors deliberately select only their nicer specimens for

certification; it makes little sense to pay charges of \$30 for a \$40 coin that slabbed may still only be worth \$40. The curious aspect is that these population figures do nicely describe a "bell" curve, quite often used as a quick test of the validity of a population sample - well, it doesn't work here.

There is even a strong negative which has become attached to these low-population, lesser-uncirculated grade coins. Some Telemarketing houses have already begun to tout these pieces as good investments. The pitch goes something like this: Out of the whole spectrum of coins, only a relative few survive in uncirculated grade (true enough); PCGS has graded more than a million of these rarities (also true enough); out of those million + coins, only 1 was good enough to receive this exalted grade of MS-62 (well, yeah, that's true too). From that perspective, a very high price almost seems justified. We are afraid that this type of abuse of the population figures will lead to further involvement of the FTC in numismatic marketing; we know of such interest in a few cases.

Another interesting aspect of the population reports is that of the "hole"; for example, as when 15 MS-64s and 2 MS-66s have been graded, but no MS-65s. Are MS-65s therefore rarer? Well, yes and no. They are definitely rarer as far as specimens seen by the grading services - that much is self-evident. But is it likely that some MS-65s exist in the real, total population? Probably, and when discovered they will deserve a lower price than the MS-66s; even if only one is discovered. Thinking of rarity and pricing in such terms is not being frivolous; it provides an interesting segue into a serious discussion of the relative pricing of Mint State and Proof examples of coins. More on that on some future date.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins

Client orsight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually much lower than for DMPL, but command some premium over non P/L strikes.

GOLDTOWN

RARE COIN INVESTMENTS, INC.

1-800-237-6275

“Quality Never Goes Out of Style” - Or Demand!

In the Last 4 weeks the Rare Coin Market has Crashed and then Rebounded somewhat...

We feel strongly that the market has bottomed & rebounded enough to offer you a two-way **sight-seen** market in PCGS coins.

Now...Do you “Buy” or “Sell”? Goldtown is offering you a choice. On a **SIGHT-SEEN** basis. We will **Buy** your P.Q. coins at 10% over our ANE® Bid (market maker trading network) or **Sell** to you from our over “2,000 coin inventory”, at 25% over the ANE® Bid on the day you call. This offer is for *PCGS certified coins only* and is good from 7/7/89 to 8/1/89. After your check has cleared we'll send you your order & offer a **5 day return on a sight-seen basis.**

We make Bids and have inventory in the following areas:

DENOMINATION	EXAMPLE	BID	BUY	SELL
Morgan Dollars - MS63 thru 68	MS68	\$16,000	\$17,600	\$20,000
Silver Commemoratives - MS65 thru 68	MS65 Missouri	\$18,500	\$20,350	\$23,125
U.S. Gold Indians - 2½-5-10 MS64 thru 66	MS65 \$10	\$10,000	\$11,000	\$12,500

We Also Buy & Sell TYPE — PF MERC — PF WALKERS

When Calling ask for: Bob Higgins or Mick Millard or Craig Hively

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Hugh Sconyers

Market Advances As Dealer Bids Appear To Be More Earnest

The certified coin market is showing signs (plus signs, that is) of renewed interest and activity; dealers are again Bidding for their favorite issues, or at least those of their clients. The past several weeks (beginning just before Long Beach) witnessed the certified market making a dramatic, downward correction from its recent highs. This has been attributed to any number of reasons: Profit-taking; cash shortages; major auction bills coming due; summer doldrums; and a host of other minor factors.

Nonetheless, the weakness in dealers' Bids has now been strengthened, and many dealers are expressing the belief that the market appears poised for another round of increases. A portion of this resurgence may be credited to the fact that the lower Bids of late only served to adjust the level of market bids downward, and *not* the level of market activity. In fact, one could argue that the levels of *market* prices did not decline nearly as much as did the levels of the *sight-unseen* Bids. One dealer pointed out that the recent decline in Bids was not a decline in the market value of coins as much as it was a failure of the marketing mechanism used to express the value of coins. Either way, the minus signs do psychological damage; just as the recent wave of plus signs buoy dealers' optimism about the market. Very few dealers were actually able to buy coins, other than generics (the common Dollars, Walkers, Commems, and Gold in the most common grades), at the lower levels. Any sales which might have taken place for better issues were well above the current Bids. This is poignantly noted in sales at coin shows and auctions over the last several weeks.

Dealer Bidding for generic coins showed a marked improvement this past week. Morgan Dollars, which are used by almost everyone as a gauge of the entire market,

have increased to \$350 Bid for common dates in MS-65. Commemoratives, often used for the same purpose of judging the level of collector interest, have stopped their downward slide with a nice sprinkling of plus signs. Despite gold bullion's lackadaisical performance in the world markets, U.S. Gold Type coins are rebounding nicely. Bids for the Proof Gold Type continue a bit on the 'thin' side, but this is seen as no cause for concern for such specimens almost always trade in a *sight-seen* environment.

Type coins, both Mint State and Proof, continue to exhibit stability in the range of 'lesser-uncs' up through MS-65. The adjustments of the last two months have dimmed neither collector confidence nor demand, and in a few cases even provided the *possibility* of a long-desired purchase at a slightly more affordable level – if one were lucky enough to find a dealer with a desired coin. Also, one who was feeling the need to increase his cash flow by selling into the declining *Bid* market. There were some greater adjustments in the MS-66 & MS-67 grades, but many of these were theoretical, as the number of really gem specimens remains low and these continue to trade at *substantial* premiums to their MS-65 relatives.

Walking Liberty Halves continue to display dealers' uncertainty about just how rare they are in top grade, and just how great the collector demand remains. Levels vacillate on a monthly basis; the market will consolidate, edge higher over time in a broad wave of bidding support, and the next day everybody is gone on holiday. Since this is one of the favorite series of the collector moving from novice to advanced (the coin dealer's *best* customer), a little more stability would do wonders for increasing the *base* of a *broad-based* market advance.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

August 4, 1989

Single copy price \$3.50

Lower Sells Move Morgans Downward Type Still Holding Constant

Morgan Dollars, which showed encouraging signs of upward movement last week, are now minusing due to many offers to sell at levels below Bid. In an effort to increase cash flow while offering a "good deal", dealers have been offering coins at CCDn Bid or less; either action will create a minus sign in the subsequent *Bluesheet*. Generics have moved downward as well, creating a multitude of minus signs that makes the Morgan market look worse than it is; dollars are continuing to trade actively, and at relatively stable levels (ignoring the fluctuations in the generics, of course); these are signs of a healthy market.

On reflection, activity really is the best sign in the coin market, regardless of the direction of moderate adjustments. After all, the actual price levels for trading have always fluctuated, and probably always will. The real problem in the market occurs when Buyers and Sellers have wildly disparate ideas of the value of their coins. If the seller wants \$2,000 and the buyer offers only \$1,000, there is little likelihood of a transaction; such confusion multiplied can paralyze the industry. On the other hand, if the seller wants \$1,500 and the buyer stands ready at \$1,450, it indicates substantial agreement on the value of the coin, and negotiation should prove successful. As long as the concept of value is shared, it makes little difference to market activity whether the sale takes place at \$1,000, \$1,500, or \$2,000. As long as coins are changing hands, whether going to or from dealers, collectors, or investors, the market will prosper.

The *Bluesheet* plays an important role in disseminating the information of pricing levels that is both cause and effect of such agreements on common ground. As a result of recent inactive Bidding for zero population or low population coins,

CCDn Bids for these rarities may seem tenuous compared to past Bidding activities. To this end the CCDn uses all means available to report accurate Bids: All teletype systems, coin shows, auction results, dealer buy and sell lists, even private transactions to which most others are not privy. Therefore, it is the stance of the CCDn that previously active and legitimate Bids will be left in place in the charts until we see prevailing active Bids at higher or lower levels. In other words, Bids for low population rarities will be the last known Bids, a logical response to the question of valuing coins that are not traded sight-unseen all that often anyway (or not at all!). This will enable subscribers to get a truer picture of the value of these rarities based on those last known Bids.

As the volatility of the U.S. market continues to serve as a deterrent to growing numbers of collectors, foreign material has become more interesting. The same amount of money can buy an AU 1744 12 ducats gold coin of Charles VII of Augsburg, or a top grade 1888-S Morgan slab. At the top of numerous cycles in the past, the cry arises that foreign material is just so cheap compared to U.S. coins. Well, in a sense it is, but it is important to remember that one man's bargain buy is a coin in which another man just might not be interested. As a demand-supply marketplace, coins are worth what collectors are willing to pay for them; if that makes VG *denarii* worth less than the cost of slabbing a Morgan, then that is what the market values each item. This remains good news for the collectors of ancients and foreign. U.S. dealers need to keep it in mind that they have to cultivate new collectors as well as sell coins to old ones.

PCGS Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Now available in one single volume is a distillation of data gathered over a 25-year period by America's leading source of coin price information: *The Coin Dealer Newsletter*! Market

closing prices are given year by year, 1963 to date, for all popular series, including silver dollars, gold, commemoratives, bullion gold and silver—you name it! Here in 527 information-packed pages is the most authoritative source in print for U.S. coin market data!

At your fingertips is a vivid record of the coin market, cycles, changes in popularity, changes in grading interpretations, and other events which have shaped the market. Year after year, this information has been used by dealers, government agencies, collectors, and investors—but **never before** has it been available all at once in a single volume. For just \$34.95 (softbound) or \$49.95 (limited hardbound) you gain a veritable **encyclopedia** of coin market information that cost MILLIONS OF DOLLARS to gather over a period of time! Indeed, this information cannot be duplicated elsewhere **FOR ANY PRICE!**

In addition, the volume contains market studies, articles, and commentaries by many of the best-

known authors in the rare coin field, those who have written "Monthly Summaries" over a long period of time. This book can make you a **MARKET EXPERT!** There is no better way to **PREDICT THE FUTURE** than to know what has happened in the past!

This immense book has been prepared in coordination with the editor and publisher of *The Coin Dealer Newsletter* and has been edited by Q. David Bowers.

GUARANTEE: After you receive your book, you have a full 30 days to be sure it is worth every penny of the price paid—and more—or it may be returned for an instant refund, no explanation necessary! However, we are sure that you will find that if we charged you twice the price for the book, it would still be the **INFORMATION VALUE** of a lifetime! Order your copy today by calling toll-free (800) 222-5993, or mail the coupon below.

Sight-Unseen Bidding May Be More Visible But SIGHT-SEEN More Accepted By Numismatists

As time marches on, the certified market has become more formidable; it is simply a more visible market than non-certified coins. However, one must keep in mind that disadvantages may accompany advantages. And while the certified market is highly visible, it can also become quite invisible on a moment's notice. This generally occurs every time there is a major coin show or convention. The marketmakers pack up their coins and travel, sometimes to be gone four or five days. In the meantime, the visibility of their **sight-unseen** Bids has vanished and the instant liquidity that the **sight-unseen** market has promised is also gone. Sure, there are always buyers at some fraction of what a coin is worth, but if this is liquidity, most dealers and their customers would rather take advantage of a **sight-seen** market any day.

This topic has been brought up several times in the past by dealers and their clients and since this is ANA week, they have brought it up again. The ANA convention acutely demonstrates the heart of the situation: The dealers who have withdrawn their teletype Bids are in Pittsburgh; the collectors and investors are in Pittsburgh; and one might argue that "the market" is in Pittsburgh (at least for one week this year). Just because "the market" disappears from the teletypes doesn't mean that it disappears from reality; reports from Pittsburgh quickly put that assertion to rest. Still, the concept of **sight-unseen** is one of instant liquidity to the highest bidder; if last week's highest Bidder is in Pittsburgh this week buying the coin **sight-seen** at \$2,000, and Dealer B is still on the teletype offering to buy the same coin at \$1,000, then the seller has reason to protest the efficiency of that **sight-unseen** marketplace.

This would be but a mere annoyance if it were not for the mobile nature of the marketplace, with business taking place at the myriad of coin shows scat-

tered throughout America (and the world, for that growing matter). Dealers **must** attend these conventions, and technology is only now providing them with the ability to take that electronic market into the real marketplace. What matters most is that real coins continue to trade at real prices to real people; anything else is *not* the coin market, regardless of any claims made to the contrary.

Dealers concerned about the volatility of the teletypes due to coin shows want to know how we are going to handle the disappearance of everyday normal Bids from the marketplace. This is where the **CDN's** extensive network of contacts and expertise are put to the test. The marketplace itself tells us what current prices are, whether that "marketplace" is in Peoria, Pittsburgh, or Compaq. We have always utilized a variety of sources to ascertain the highest visible Bids in the marketplace. It may be that the Bids from any one particular source are lower than found elsewhere; that only becomes a problem if a particular seller is looking at only the one source. If we detect a tendency towards weakness (or strength!) from one source but are unable to verify it, then we use our best judgment and resources to report what the marketplace is really thinking **and doing!** One seller selling below the market cannot drive Bid down, and one Bidder, for one coin, cannot raise the entire market; one person does not make up the marketplace, nor does any one source. The true **sight-unseen** market extends across America and is made up of thousands of dealers; we try to reach as many of them as possible, to give you the best information possible. Inasmuch as many Bids have temporarily been removed from the marketplace, it would be wise to check last minute prices before confirming any transactions. Next week we will have deciphered information from the ANA and Bid prices will reveal the market's direction.

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars (semi-prooflike or one-sided PL) will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating *the* standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

CERTIFIED COIN DEALER

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. IV No. 33

August 18, 1989

Single copy price \$3.50

Market Activity Shows Big " + " While Sight-Unseen Bids " - "

This past week has demonstrated anew that the electronic **sight-unseen** market segment is not the *whole market*. Several dealers at the ANA reported their most active show ever; one of the country's leading dealers said "the ANA convention was my best ever - lots of buying and selling!" And that was in comparison with more than 25 prior ANA conventions!

So why all of the minus signs in this week's *Bluesheet*? Other than the obvious answer that **sight-unseen** Bids are lower? Specifically, the market weakened early on Bids for the generic coins, but potential sellers couldn't be found at these new lower levels. Dealers looking for common Dollars, Walkers, Comems and U.S. Gold had to stretch a little to fill their needs. They were still buying at lower levels than earlier, but certainly higher than the **sight-unseen** Bids would indicate. Dealers are predicting that this may serve to stabilize the generic market over the next couple of weeks; especially if potential sellers continue to hold out for more than the buyers are Bidding.

This type of activity seems fairly common in the certified market, and reminds us to review the role the *Bluesheet* plays in that market (we have said it before, and we will say it again). The *Bluesheet* reflects the *highest*, nationwide **sight-unseen** Bid for the coin; it may **not** reflect what the coin may actually be selling for in the marketplace, **sight-seen** or **sight-unseen**. Granted, all that activity at the ANA was taking place at lower levels than the market saw earlier in 1989, but as long as coins are changing hands, the market must be characterized as **healthy**. The price of coins will continue to go up and down; as long as trades are occurring it means that buyers and sellers have a consensus on what the *current* value of the coin is. Divergent opinions on the value of coins means the

end of trading.

In the rising market that characterized the first half of 1989, the market was being driven by electronic **sight-unseen** Bids - no question about that. But since June, the real market for coins has been found on the bourse floor, as dealers inspect the merchandise and then make offers accordingly. Some coins (those not in demand) are selling at *Bluesheet* (an action which in itself will result in minus signs); those coins in demand are selling at some percentage over *Bluesheet*. The *Bluesheet* Bid should only serve as a specifically-directed guide to the value of a coin - it is the price that a seller can obtain if he wishes to sell today without making any attempt to find higher buyers in the marketplace.

One could argue that it "isn't right" for the highest Bid in the marketplace to be 50% (or 70% or 90%) of the "value" of the coin in the real marketplace. For the dealer to make such a complaint, the response is simple - **YOU** could make **YOUR** Bid higher, and the *CCDn* will acknowledge the Bid. When the collector makes the same complaint, it is not quite so easy to dismiss. But as long as he understands that the *Bluesheet* Bids should be considered as the Bid of *last resort*, or perhaps as the *starting point* of negotiation, then neither buyer nor seller should get hurt.

The current numismatic marketplace is not *efficient*; it is not as easy to find the current market value or the high Bidder for a coin as it is for 100 shares of IBM. That inefficiency will ultimately hurt numismatics' drive into upper-echelon investing, but as long as **all** the participants understand the inefficiencies, know how to use the tools available, and pay attention, numismatics will continue to mature as an investment arena.

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued, if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective in one or both areas with less luster than the deep-mirror Prooflikes. Bids for P.L.s are usually much lower than for DMPL but command some premium over non P.L. strikes.

Thanks A Million.

*The PCGS One Millionth Coin
1894-S Morgan Silver Dollar / MS-66*

PCGS was established to create a new standard for the rare coin industry in February of 1986. Our business principles were inspired by a genuine desire to preserve the integrity of the rare coin industry for collectors, investors and dealers, alike. Our objective was to revolutionize the rare coin industry . . . forever.

The certification of our one millionth coin on December 21, 1988, surpassed our greatest expectations, and symbolized a major milestone toward the achievement of that goal.

Today, thanks to your overwhelming acceptance and support, PCGS celebrates its third anniversary as the most successful grading service in the numismatic marketplace.

Precision third party grading, the PCGS guarantee of grade and authenticity, easy liquidity through the Ameri-

can Numismatic Exchange's electronic trading market, and consumer protection, are the advantages that have made PCGS *the* rare coin grading service of choice. In fact, PCGS clearly represents the lion's share of all certified coins currently traded.

In three short years, PCGS has certified 1,029,302 rare coins with a cumulative declared market value of \$934,678,164 through a network of 367 authorized PCGS dealers nationwide.

As PCGS focuses on the certification of our second million coins, we would like to express our appreciation to those in the numismatic community

who have helped us attain our success. We have worked very hard to earn your loyalty and respect. We are committed to continue to provide our valued clients with uncompromising quality and the highest industry standards for many years to come.

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Sight-Unseen Bids Continue To Deteriorate In Otherwise Healthy Market

More and more dealers seem to be returning to the rigors of **sight-unseen** Bidding, as the number of visible Bids in the marketplace is on the increase. However, of vital concern to most dealers is that the majority of these **sight-unseen** Bids are considerably lower than they had been of late. In other words, the **sight-unseen** market may be operative *but* transactions may be a little sparse due to the ineffectiveness of the dealer's buy prices.

The majority of changes currently being monitored are negative, with minuses outnumbering pluses about 2 to 1. The Commemorative market, one of the series often used to judge the overall health of the market, is suffering as much as any series, as availability of coins is a key problem. Availability as in too many, that is. Almost every dealer has plenty of Com-mems and in order to balance inventories, they report feeling 'obligated' to sell at current levels. However, with the marketmakers' Bids considerably under previous levels, the potential Commem seller has to chase the market downward. At some point, if past cycles are any guide, prices may become so low that buyers can't help but jump in and begin to support the market at current (and consequently growing) levels; thus, Bids advance as confidence builds. How soon this will occur is anyone's guess.

The Type market seems to be following this same theme. Nonetheless, there are some signs of support at this time. Despite the immense number of minus signs throughout the Type chart, there are specific issues which are moving forward. Our sources report that dealer want lists are very particular as their clients will not settle for secondary choices. This indicates that the buyers are studying certain areas of the market and the knowledge that they are gaining is affecting their choices. Perhaps this is one advan-

tage for the collector with a number of different collecting areas; if he can't buy *just* the Commem he wants at the *right* price, he can try his luck in Morgans or Buffaloes or whatever series he feels presents appropriate buying opportunities.

There are several problems created by the 'low-ball' Bids in the marketplace. First, is that it gives the illusion that market prices are more depressed than is warranted. Secondly, the psychological impact of negative signs on the *psyche* of the market. Thirdly, the negative attitudes created decrease the amount of business which is being done. Fourthly, and a point that we would like to develop, is that 'low-ball' Bids seem to be producing a widening of the buy/sell spreads for almost any coin which is not considered to be of a generic nature. A generic coin, such as an 1881-S Morgan in MS65, might be Bid at \$325, with a seller trying to get \$350. Yet, a slightly better Dollar, such as an 1882 might be Bid at \$1,050 in MS65, with the only visible seller at \$1,700. And rare-date spreads are getting even wider. For instance, an 1893-O Dollar, in MS64, is Bid at \$8,300, while the only specimen found for sale is at \$22,000.

With sensational spreads of this nature, it is not difficult to understand why novice collectors do not feel comfortable with rarities. They would rather leave these to the numismatists or those who know about such rarities, while they stick with the generics. Then, as the novice becomes more advanced he, too, will recognize that such 'low-ball' Bids do *not* reflect the true value of a specimen in the marketplace; only then will he be inclined to purchase the rare dates.

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued. If not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. Look for premium quality, NGC certified coins at the following Charter Member/Dealers.

Bidding Activity Mixed As Want Lists Take On Specialized Look

While the number of minus signs continues to outnumber plus signs, dealers persevere in their active Bidding in all series. The only drawback seems to be that they are highly competitive for coins they don't have in inventory; their Bids for issues that they already have in inventory are heavily discounted. This is the main cause of so many declines; this also gives the appearance of weakness in the overall market which may not be completely true. Two factors induce this market to maintain a healthy measure of activity. One, is the fact that many dealers are willing to buy coins that they can view first. They are looking for coins that are high-end for their clients because they know their clients have become selective in this *down* market. Their clients are becoming more astute as they venture deeper into numismatics. They do not want average quality, they want **Premium Quality**; and many clients are willing to pay for the privilege of selecting the best. The primary benefit of the sight-unseen market is that the seller knows the *base* price value of a particular coin.

The second factor which describes this as a healthy market is the fact that dealers and their clients are becoming more specialized. They are shying away from common coins; they are trying to buy better or rare date coins. This can be seen in the messages run on the teletype systems, on bourse floors, and at the many auctions which have taken place recently. Even though minus signs appear in the columns for some of these better issues, dealers and their clients are more anxious to buy

them than the common coins. They also realize that a potential seller of better date coins will usually want more than the listed Bid prices anyway. We rarely see better date coins offered at discounted levels.

Do not overlook the fact that there are plus signs in every chart. Dealers are being very specific in their needs and just because an issue is lower does *not* mean that it is easier to buy. In fact, some market-makers lower their Bids in order to give the appearance of weakness so that they can attempt to buy an issue at a lower price. The fact that potential sellers usually do not let this influence their pricing structure, may lead to wide spreads for some of the better issues. This has occurred over the last couple of weeks as the Bid prices are sometimes one-half of the Ask prices. This is an indication that several dealers feel the market will firm up in the next few weeks, as they ready for the Long Beach Show in early October.

The generic issues seem to be stable at this time. The spreads are very tight as a few dollars can mean the difference in being a buyer or a seller. For example, MS63 Morgan Dollars are Bid \$50 (PCGS) and we note sellers on the teletype systems at \$52 and \$53. Other generic issues have similar spreads. Common Walkers, U.S. Gold, and Peace Dollars are traded on a daily basis in such large quantities that a ready two-way market is a must if the numismatic industry is going to be considered a viable alternative to other types of investments and compete on an equal basis.

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Pacific Coast Auction Galleries has your number ...

2%

Beginning with our 7:00 PM October 4th CERTSALE VIII at the famous Long Beach Numismatic & Philatelic Expo we will charge as low as **2%** sellers fee and **2%** buyers commission. We have another number you will like ... **14**. We need your certified coins in our hands only **14** days before the CERTSALE (September 20th). Only **1000** lots can be included, so ship your certified PCGS, NGC, ANACS, etc. coins as soon as possible.

Pacific Coast Auction Galleries conducted the first all-certified coin auction in 1986, and holds three important CERTSALES each year in conjunction with the Long Beach Expo.

We make fast settlements ... we fully insure your coins while in our possession ... we issue attractive catalogs ... and we get high prices for your certified coins. Call or write if you have any questions. Or even better, just ship your certified coins to us today!

Ronald J. Gillio, Inc.

A Healthy Market Is A " + "

For The Industry

What constitutes a "healthy" coin market? This is not a trick question, and some real complexities lie beneath the superficial answers. The quick and easy response we are given most often is "when prices are rising," usually followed by a moment's thought, and then the modified "of course, what is healthy for *me* is when I sell coins for more than I have to pay to purchase them." It is this afterthought that reflects the steady but quiet market that currently prevails.

Dealers have to make a profit to stay in business — no arguments there. And because much of a dealer's wealth is tied-up in his inventory, the value of that inventory is of real importance. In a rising market, lots of **plus** signs means that the value of the dealer's assets has grown. But does that mean a "healthy" market? The question here is really not whether it's better to make money than lose money; indeed, until a sale occurs, no real money has been made or lost. I can put a value of \$1,000,000 on my dog, but unless I can sell him for that price, is he worth it? Not if the only transaction I can find is a trade for two \$500,000 cats. But we digress.

There was a time during the fabulous price run-ups in April when we suggested that dealers *might* be better off holding their inventory instead of selling it. Why sell for \$1,000 when next week you could get \$1,100, and the following week \$1,300? The question was only semi-facetious then, and equally so today — although current minus signs have turned it around. In the rising market, dealers wanted to hold onto their coins for as long as possible, for fear of missing next week's increases; in the declining market, they want to sell as quickly as possible to avoid next week's declines.

We would characterize neither of these as a "healthy" market. Indeed, the question of health, in our opinion, has nothing to do with whether there are plus or minus signs in the *Bluesheet*, or whether or not the price is higher or lower than some time in the past. What matters most is: Does the dealer have customers who are buying coins, and at prices that allow him to profitably replace the item in inventory? If the coin sells at \$550 and replacement costs \$500, then the dealer is no worse off than before; in fact, he is \$50 better off. It doesn't matter that the coin might have sold for \$800 four months ago — he didn't sell it then, and his customer didn't buy it then. And if a transaction now produces cash flow that can make still another profit tomorrow (even if it means a book-keeping loss), so much the better.

It might be nice if we could all forecast market peaks and valleys, but experience shows otherwise. And we certainly appreciate **plus** signs, because they mean that there is increased demand in the marketplace (at least as long as the demand is specific from buying customers, and not general from inventorying dealers). And certainly, the dealer would rather book larger profits than losses. But that is part of an elusive perfect world. In the meantime, all that matters is to keep the money and coins moving in the business. Economists would point to this and extol the virtues of the time value of money; the dealer would look at it and say "let's do a deal." And it is this type of activity that characterizes the current coin market. We keep hearing from dealers that 'well, yeah, the prices are down, but we are doing lots of business at those levels.' Quiet, steady, and busy. That sounds pretty healthy to us.

PCGS

Professional Coin Grading Service: Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA, and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service: the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America: Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone: (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit: "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute: Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone: (214) 742-2200. NCI uses three graders in a determination of a final grade and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued. If not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Sight-Unseen Bidding Stalls As Market Trading Slips

The foremost problem we are facing today, at least in the certified coin market, is that most dealers are either offering very low Bids or no Bids at all. Although the concept of sight-unseen Bidding is for the benefit of the ultimate buyer (it gives that buyer a sense of minimum value if he needs to sell his coins at a moment's notice without shopping them around), current sight-unseen Bidding is of such triviality that the image of the marketplace is one of severe weakness. But, is this really the case?

It must be remembered that a competitive sight-unseen Bid, especially for generic coins, is likely to be "hit" by a seller. This is particularly so in a down market. While a competitive Bid may keep the market stable, it may also add to a dealer's inventory. Rather than increase the desired size of his inventory, a dealer is likely to discount his Bids dramatically. Considering the fact that most dealers in the country have been lowering their Bids in order to protect their inventory balance, you can see why Bid levels are plunging. Nevertheless, in many cases the Ask prices are not falling by the same percentage; **in fact, some of the Bid/Ask spreads are now astronomical!** This is an indication that most dealers feel that Bid prices are way too low in comparison to actual value.

Therefore, there are several answers to the question: Are the current low Bid levels a reflection of the true value of one's coins? Yes, if one is going to sell at this particular point in time. Maybe, if one is taking inventory for tax or insurance purposes. And a definite no for anyone who is planning on holding their coins as part of a long-term hobby or investment plan.

Regardless, a better indication of the current market is an observation which we will relate at this point: Many dealers are still trying to buy various coins in almost every series. However, when they query specific coins, they mention no prices. They are usually serious about buying these coins; they are just trying to buy them cheap and are not willing to let the rest of the dealers know what they are really worth to them. This is exactly what we mean when we say it is important to be a knowledgeable numismatist. If you are not aware of rarity by mintage, or quality, or availability, then as a seller, you may not get the best price for your coins.

Another factor helping to drive down the real prices of coins in the marketplace is that sellers are chasing the Bids down. This is not always due to cash flow considerations, or even the desire to escape the self-fulfilling prophecy of a declining market. We recently spoke to a major dealer who specializes in foreign coins, who only buys U.S. material when he 'stumbles' across a 'really good buy'. A recent purchase of a Sesqui. for \$225 resulted in a slab-64! With no retail customers for U.S. coins of this caliber, he was content to let it go for cash at the high Bid on the major teletype network. Sure, there were higher Bidders in the marketplace, but as a 'manufacturer' of the slab, he could take a useful profit and apply the cash-flow to his area of expertise. Among the several points that could be drawn from this example, which we see multiplied many times in the marketplace, is the inescapable conclusion that dealers who have maintained a strong client base will continue to do very well, even in this lackadaisical market.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The Bluesheet
Certified Coin Dealer newsletter reports the national coin
market for certified coins only. Only the most active areas for
the most active grading services are represented. CCDn uses
every means available to insure accuracy and completeness of
the bid prices shown. Since prices represent the highest known
bids at press time and they are based strictly on dealer needs,
prices will fluctuate according to these needs.
Individual buy and sell prices will vary from dealer to dealer.
What price levels an individual dealer buys or sells at is strictly
up to the dealer. CCDn represents only that the bid prices listed
were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible
bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit,
on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually much lower than for DMPL, but command some premium over non P/L strikes

An "Offer You Can't Refuse" From Bowers and Merena

I invite you to call toll-free (800) 222-5993 to order what I believe to be the greatest book bargain of the year!

I have always believed that those who know the most, profit the most. Learning about coins and the market is the best way to do well, whether you are a collector, investor, or dealer. And the best, easiest, and least expensive way to learn is by reading! That's why I want to make you an offer which you cannot refuse! Read on...

On this page I describe Book Deal No. A-1 and Book Deal No. A-2, each of which offers you best-selling books at less

than half the cover price, if you are among the first 1,000 people to order! Furthermore, I personally GUARANTEE that you will be delighted, and if you are not, a \$14.95 book is yours to keep free!

Why am I making this bargain offer? There are two reasons, and I believe that each makes good business sense. First of all, by offering these books SUBSTANTIALLY BELOW WHOLESALE I hope to have you become acquainted with Bowers and Merena Galleries and the fine service we offer, not only in books but in rare coins as well. The way I see it, you will be so pleased that you'll think of us first when

RAY MERENA, President, Bowers and Merena Galleries

you order other books or coins later. Second, I have always believed that a well-educated client is our best customer, and this discount offer is my contribution to your knowledge.

BOOK DEAL A-1

- ▶ *High Profits From Rare Coin Investment*, by Q. David Bowers. New 12th edition of the best selling book ever published on the subject. 368 pages\$14.95
- ▶ *Photograde*, by James F. Ruddy. The best selling book on coin grading. 208 pages 9.95
- ▶ *Buyer's Guide to U.S. Gold Coins*, by Q. David Bowers. 120 pages. Hardbound 19.95
- ▶ *An Inside View of the Coin Hobby in the 1930*, from the fascinating private papers of Walter Nichols. Critically acclaimed! 120 pages 14.95
- ▶ *U.S. Coins by Design Types*, by Q. David Bowers. 256 pages 9.95
- ▶ *A Handbook of 20th-Century U.S. Gold Coins*, by David Akers. 148 pages 19.95
- ▶ *Private Gold Coins and Patterns of the U.S.*, by Don Kagin. 406 pages. Hardbound ...29.95
- ▶ *An Historic Account of American Coinage*, by John H. Hickcox. Reprint of rare 1858 work from an original which cost \$375! 9.95
- ▶ *The Eagle That Is Forgotten*, by Dr. Joel Orosz. Foreword by Eric P. Newman. The life of America's first coin collector 9.95
- ▶ *Fractional Money*, by Neil Carothers. Reprint of this important work on U.S. "fractional" coins from half cents to half dollars. A classic! 370 pages 19.95

Total list price: \$159.50

You pay less than a third of list price! Your cost for Book Deal A-1\$49.95

BOOK DEAL A-2

All the books in Book Deal A-1. List price\$159.50

- ▶ *The History of U.S. Coinage*, By Q. David Bowers. The 572-page color-illustrated hardbound book which is virtually a university course in numismatics! 49.00
- ▶ *U.S. Gold Coins: An Illustrated History*, by Q. David Bowers. Deluxe hardbound, 415 pages. Illustrated by coins from the \$12.4 million Eliasberg Collection 47.00
- ▶ *The Coin Dealer Newsletter: A Study In Rare Coin Price Performance*. 527 pages, softbound. Market closing prices from 1963 to date, plus much information on grading, market trends, etc. A must for all active buyers! 34.95

Total list price: \$290.45

For Book Deal A-2, you pay only\$129.95

Call toll-free (800) 222-5993
for instant shipment

City _____ State _____ Zip _____

Guarantee and "Fine Print": Each Book Deal is guaranteed to please you. If not, you may return your Book Deal within 30 days of receipt—except for the \$14.95 *High Profits from Rare Coin Investment* which you can keep for free—for a refund in full, no explanation necessary, no questions asked! Could any guarantee be stronger or fairer? This offer is limited to just one Book Deal per buyer (your choice of A-1 or A-2, but not both), and will expire when 1,000 Book Deals have been sold. So order early! All orders will be shipped postpaid to U.S. addresses. To foreign addresses, add \$4 shipping for A-1 and \$10 shipping for A-2

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,

Heifetz Auction: Scintillating Slabs to Sizzle

Any market uncertainty about the value of some of the rarer, higher-grade certified coins will come to an end Oct. 1-4 in Beverly Hills. Superior Galleries' magnificent Jascha Heifetz auction will be an event to remember—4 days, 9 sessions, and 6197 lots that stands a good chance of becoming the highest grossing individual coin auction ever held. With such a monumental offering, especially one with so many areas of strength among the U.S. series, it reduces one's level of participation to the essential question: how much money can I afford to spend (or as is so often the case, how much will I spend that I can't afford to but can't pass up this opportunity either!)?

For the specialist, there is abundant choice of both certified and raw coins in such areas as California Gold, Bust Halves, an incredible offering of National Bank notes (including seven California National Gold Bank Notes), patterns, dozens of \$3 gold (many proofs), and Territorial Gold, just to mention a few! Quality and pedigree, added to opportunity; what a terrific sale! If you collect U.S. coins for fun or profit, and you have the dollars and four days to spare, the Heifetz sale can fulfill your wildest dreams. Among the Certified Highlights are:

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Market Follows Declining Bids Marketmakers Asserting Little Leadership

We have received several telephone calls recently questioning some substantial drops in *Bluesheet* Bid prices. If we cared less about numismatics, we would probably respond with a flip comment about 'shooting the messenger'. But we do care, and because we do, we must point out *ad nauseam* that the *Certified Coin Dealer newsletter* does not report on the current **value** of certified coins; we report on the highest sight-unseen Bid in the marketplace. That Bid may or may not have anything to do with the real value of the coin.

So how is this information of use if that high Bid drops from \$6000 to \$3000 in one week? Obviously (we think), the real value of the coin has not dropped 50% in one week. What has changed is that the highest Bidder (or Bidders) has disappeared from the market. He may return the next week at \$6,000, or \$7000, or \$2500. We cannot predict this, and do not even attempt to do so. By reporting the drop, we are alerting dealers to the loss of that high Bid; your reaction is up to you. It appears increasingly that the reaction has been to slowly chase the dropped Bid downward with lowered sells. We have been commenting on this for several weeks. Unfortunately, as the sells are lowered, the already low **sight-unseen** Bids are lowered even further.

Now every numismatist knows that coin prices go up and down, and that generally, each subsequent top (and bottom) is higher than the previous one. The question of making money in such a cyclical market is primarily one of timing. In this respect, the marketplace has been radically changed by the shifting of the primary purchaser from the collector to the investor. The collector wasn't nearly as concerned with market timing; if prices declined, he could take advantage to make his buying dollars stretch a bit further. Timing was only important when it was time to sell, and even then, after ten or twenty years of

collecting, he was in his coins at such ridiculously low prices that timing wasn't that critical.

The mentality of the investor is quite different, and certified coins have done nothing to change that trading outlook. Contrarians aside, the investor likes to buy into the rising market; he is not interested in buying on the way down, and is content to miss the bottom and buy into the next upward cycle. The investor also likes to sell at the first sign that the peak has been reached, thus reinforcing the feeling that prices are dropping as all his material floods the marketplace and indeed forces prices down.

So, how to get the investor to buy back-in now and help prices rise again? Simple. Both dealers and investors need to believe that the bottom has been reached and that prices are starting to rise again. Since we are only worried about belief, and since action based on that belief becomes the new reality, one of our telephone callers suggested (not entirely in jest) that we "simply declare the market slide over."

There are a number of attractive certified coins in this week's 1989 San Diego Sale, being held by Mid-American Rare Coin Auctions.

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA, and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Get Ready!

Get Set!

We're Nearly Ready to Go!

The entire rare coin community is talking about **HALLMARK GRADING SERVICE**, the connoisseur's grading service whose superb quality encasements (slabs) will soon be on the market.

If you are a dealer, being part of **HALLMARK GRADING SERVICE** promises to be profitable to you and, at the same time, build fine relationships with your clients.

HALLMARK offers more. It is a matter of record that Premium Quality coins sell for more money and sell faster than do "generic" or "sight unseen" coins. It is a matter of record that a rare die variety often sells for more, sometimes many multiples more, than an ordinary coin. Not all MS-63 or MS-64 or MS-65 or any other grade coins are precisely alike when it comes to market demand and market value. **HALLMARK** helps you and your clients realize the extra value your special coins deserve!

Want to know more? Use the convenient coupon below. Or. . .

See Lee J. Bellisario, president of Hallmark, at the Long Beach Numismatic & Philatelic Exposition, Long Beach Convention Center, October 5 - 8, 1989, at the Hallmark table.

Superior's Heifetz Sale Passes \$16.2 Million Mark New World Record Tops Eliasberg

It is no small accomplishment to set the world record for a single auction, especially when the record was held by the \$12.5 million of the single-owner Eliasberg sale. Even more astonishing than the \$16,288,978.75 total prices realized for Superior's nine-session numismatic marathon is that many certified coins in the Heifetz sale were selling at levels roughly 30% over Bid. This would be astonishing even if we weren't in a market that can charitably be termed lackluster at best. We have seen this phenomena before at auctions, but usually during up markets.

So what accounts for all of this excitement? We can probably dismiss auction fever, although if ever a group of coins could inspire a bidding frenzy it would have been this magnificent collection of 6197 lots. But the sale was too huge and the lots too expensive to sustain that kind of emotional high—especially not coming on the heels of a lethargic third quarter. Part of the reason for the higher prices may certainly have to do with the longer terms of payment found at auctions (and the special terms that big spenders may be able to negotiate with the auction houses). Any terms longer than the week required on the teletypes will certainly encourage 'right-arm exercising'.

The ability of the dealers to Bid on sight-seen material also should be encouraging prices higher than those found on the teletypes. This is a "visual" business, and all the grading increments or fractions or PQ designations won't change the fact that some coins are prettier than others, and that purchasers will pay a premium for a coin with flash. Buying coins at auction, the Bidder knows exactly what he is purchasing, and he sets the price he is willing to pay. Being in control of the situation is always an aid to optimistic thinking and action. And we would be remiss not to mention that at least some of the coins

will be purchased at a "high" price because the Bidder believes that they were undergraded the first time through slabbing, and is willing to pay a premium for the right to resubmit the specimens.

Perhaps instead of probing why auction prices are "higher", we should look at why teletype prices are lower. Most noticeable, recently, has been the absence of the "marketmakers" who earlier led the teletype Bidding. They have been conspicuous by their absence; and when they do post Bids, the Bids are low. In fact, they are lower than these same dealers are paying in the marketplace. At times, it seems almost like they are trying to keep their real buying prices secret. Of course, that may be an uncharitable interpretation of their desire to evade the teletype rules that require them to make multiple purchases of one item—that is certainly not the route to full inventory control.

We can at least be sure of one thing—Heifetz coins traded well above the sight-unseen market Bid prices that we report in the *Bluesheet*. It is impossible to list even a fraction of the significant highlights, but we will mention a few of our favorites.

Denomination	Grade	Prices Realized
1880 \$4 Stella	PCGS PR-65	\$297,000
1861 \$20 Liberty	PCGS 67	\$181,500

1879 Washlady Dime J-1584	PCGS PR-66	\$ 31,900

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

Slabs Rebounding Off Long Beach Floor Heifetz Success Fuels Successful Show

For those readers who like to keep track of such things, Superior Galleries put fresh batteries in their abacus and came up with a revised total for the Heifetz sale: \$16,300,572.75! Since this is a **world record price**, and we know that the exact figure will be significant to many of our subscribers, please stay tuned for any additional changes.

The enormous success of the Heifetz sale certainly put the numismatic market into a better mood for the Long Beach show. Dealers surveyed only two weeks ago couldn't remember such pessimism going into the perennially successful Long Beach event. Many weeks of minus signs had put dealers in a generally pessimistic frame of mind—just the sort of thing for a contrarian to latch onto! It seems that dealers need to be periodically reminded that they can sell coins at 'lower' prices, and that customers certainly prefer to buy coins at lower prices.

Speaking of customers, many dealers at Long Beach were expressing mild surprise that they were making so many sales to collectors. It's always good to have a Long Beach show that reinforces the reality of whom the final customers are. We would like to reinforce the fact that collectors really are still out there, as many 'local' coin dealers can attest, but that they are so 'turned off' by the bustle of the typical coin show that they don't even bother to attend. Better to make their purchases 'down at Tom's', who always has time for a quick chat about the family and answer a few questions about

coins. Just ask one of the small-town dealers who manage their shop, their business, and their customers how they stay in business.

For the dealers who like to travel to shows, and especially for dealers who like to buy at auctions, the last two weeks certainly gave them their choice of events to attend. Pacific Coast Auction Galleries' \$1.3 million Cert-sale VIII contained more than 1000 lots of slabbed material. When these abbreviated description, low-fee catalogues first started appearing, we wondered if they could survive against their glossy competition. Well, we are pleased to report that they have not only survived, but have prospered. For the Bidder who likes to inspect his material, and for the coin that *doesn't* have a special story to tell of provenance or personality, why not sell or buy in the most efficient (and cheapest) manner possible? Among the highlights:

Denomination	Grade	Prices Realized
1896 Gold Proof set, 4 pcs	PCGS PR63-PR64	\$79,560
1861 Trime	NGC MS66	\$4,488
1886 3-cent Nickel	PCGS PR66	\$2,091
1807 Draped Bust Dime	PCGS MS63	\$8,670
1855-O Half Dollar	NGC MS63	\$1,377
1854 Gold Dollar T.II	NGC MS63	\$13,260
1907-D Double Eagle	PCGS MS66	\$29,070

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued. If not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars (semi-prooflike or one-sided PL) will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

Market Climbs Out Of Doldrums Increased Bids Means Increased Profits

The way marketmakers have renewed their Bidding activities one would think that they had just won the lottery; or, at the very least, know something about the rare coin market that the rest of us would like to know. For example, the market might be headed back up after a couple of months of weakness. Is the market going to move higher over the next few weeks? This is not an easy question to answer because we do not know how strong the "cash market" is at this point in time. There are rumors of a new Wall Street fund (as high as \$200,000,000) which could be the reason dealers are Bidding with such ferocity. But there may be more to it than pure speculation since the marketmakers realize that if the new fund does not materialize then they will get stuck with large, over-priced inventories.

It would also seem logical that investors and collectors are starting to buy coins again. As fast as the certified market can turn around, this may have been a seemingly slow process over the last couple of weeks. That is, prices became very weak; Bids were almost ridiculous since most dealers would not sell at these levels. If they did sell, it was only because they wanted to get rid of low-end quality coins, or, they were creating cash flow opportunities for themselves. Anyway, the last two weeks have seen the number of plus signs increase as the number of minuses have decreased.

The dealers' clientele, knowing that he couldn't buy substantial amounts of coins at these previous lower levels (an occasional bargain here and there), has begun to show renewed interest. They know they will have to pay more, but they are also aware that they may be able to buy into some areas of the market at massive discounts from the levels which had been attained just a few months ago. This is where the dealer comes into play and shows his true worth to his client. Through the dealer's expertise, he can show his clients which areas are likely to increase over the next few months.

Now that the market has turned around (this may or may not be a permanent trend), it will become more difficult to buy coins. When there is a noticeable change in market direction, especially to the upside, dealers automatically feel that their coins are worth 20% to 30% more. This may not be too far from the truth when you figure that a coin which wasn't active at \$100, is now Bid at \$110, while the asking price is \$120. This may be too simplistic, however, the track record in the coin business will verify that this occurs at every interval where there is a distinct change in market direction. And the way marketmakers are Bidding at this time indicates that we are definitely at this crossroads again. How long will it last? Only time and money will tell.

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective on one or both sides with a reflectivity than the deep mirror Prooflike. Bids for P.L.s are usually less than for DMPL, but command some premium over non-P.L. coins.

BACK ISSUES of the CURRENCY DEALER newsletter AVAILABLE

Complete your file of CURRENCY NEWSLETTERS!

We still have a limited number of back issues since publication began. Your completed file will enable you to "chart" your favorite issues.. and to pin-point market trends and spot the best buys in the current market. And, of course, the in-depth articles and analyses are written by the most respected experts in this field. (PLUS special Issue-by-Issue Charts covering areas of changing importance).

- ☐ September, 1980-Introductory Issue.
- ☐ October, 1980-"U.S. Military Payment Certificates."
- ☐ November, 1980-"Encased Postage."
- ☐ December, 1980-"Paper Currency Grading and Preservation."
- ☐ January, 1981-"Origins of Postal Currency"...a look at the beginnings.
- ☐ February, 1981-"Uncut Sheets of U.S. Currency."

THE GRADING SERVICE for today's market of DISCRIMINATING BUYERS

Hallmark has been launched, and right now we are accepting submissions! Those who have seen the new Hallmark encapsulation have been enthusiastic, and you will be also!

Hallmark Grading Service recognizes that not all coins are created equal, even if they have the same technical grade, such as MS63, MS65, etc. As auction prices vividly demonstrate, as dealer-to-dealer transactions continually verify, coins which are Premium Quality, or which have a high degree of aesthetic appeal, or which are especially well struck, or which have some other feature lifting them above "generic" coins will often sell for more, often much more!

Hallmark Grading Service recognizes this important aspect, and not only gives you the MS65 or other technical grade as determined by our expert staff, but also designates Premium Quality, aesthetic desirability, die variety, mintage, pedigree, and other aspects when appropriate.

To sum it up: Hallmark-graded coins are for the discriminating buyer who wants something more than ordinary or "generic" grading.

We invite you to become part of the Hallmark success story. Send us the coupon below, and we will send you information about how you can submit your coins. If you are a dealer, request our packet of dealer information. Either way, Hallmark makes you and your coins a winner!

Attn: Lee J. Bellisario, President		CCDN1020
Please send me: _____ Information about how I can submit my coins to Hallmark; _____ Your dealer packet.

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Single copy price \$3.50

Clients: Collectors And Investors Vault Back Into Market As Dealers Increase Bid Levels

The rumors of new "Wall Street" funding seem to have spurred the market as Bids advance almost across the charts. This is the largest number of advances we have seen registered in several months. Every area seems to be benefiting as dealers want to get their customers in on the "ground floor" (in reference to the latest 'bottom' which the market hit two or three weeks ago).

While "news" of a possible new 100 million dollar fund is encouraging to the industry as a whole (since it magnifies the strength the coin business is gaining on other forms of investments), it is a major concern to the realist over the short-term. If the market increases due to pure speculation, then you can bet that the final result will be a downturn which will be just as dramatic as the initial run-up. We have seen this occur several times over the last two years. The market moves up due to higher Bidding; when astronomical paper profits are monitored, sellers (or profit-takers) become more active. Thus, supply and demand economics takes over and more coins are on the market than can be absorbed in a short period of time. The inevitable occurs, and prices begin to fall as sellers chase Bidders to lower levels. Prices then languish until the money supply is built back up, usually by fresh money entering the market, and dealers start buying those issues which appear too cheap. Then, the cycle begins all over again.

The reason we have presented this scenario is so that you can visualize the definitive cycles inherent within the certified coin market which were not so readily apparent in the marketplace before certified coins came into

vogue. If your clients are not aware of the nuances of the rare coin market, you are doing them an injustice. They must be prepared for the up and down cycles which are going to follow the money supply within the industry. When there is a lot of money, prices will probably go up (in general). When money is tight, prices will certainly fall because the high buyers will have to lower their sight-unseen Bids.

Because of our concern with the volatility of the sight-unseen market and what a new fund would mean to the price structure of the certified market, we called several marketmakers across the country to enlist their assistance in determining the reasons for this latest round of Bid increases. Is it due mainly to speculation on "the fund"? The answer we received was most encouraging. Ninety percent of those polled said that "the fund" had little to do with the fact that they were raising their Bids on so many of the coins that they were trying to buy. In fact, they are seeing a renewed interest from their clients. Their clients, for the most part, are becoming more sophisticated in their approach to rare coins. They are beginning to realize that the market has cycles and you just have to learn when to be a buyer and when to take profits. And now, it seems, they feel it is time to get back into the market. To clarify the situation into a clear-cut answer, it would appear that this current upswing is being fueled by actual demand rather than speculation. Of course, it wouldn't hurt the profit potential if a new fund were to develop; but it might be detrimental to the whole picture if and when a Wall Street fund dries up.

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued. If not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client orsight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. Look for premium quality, NGC certified coins at the following Charter Member/Dealers.

CERTIFIED COIN DEALER

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. IV No. 44

November 3, 1989

Single copy price \$3.50

Market Sizzles As Plus Signs Outnumber Minuses Four To One

The certified coin market is moving along marvelously as plus signs literally cover every series. This is the healthiest the market has appeared since before the Long Beach Show last June. Despite the fact that some issues are increasing at an alarming rate (too lofty, too rapidly), the majority of increases are nominal each week. This is uncharacteristic compared to previous market run-ups. In the past, when certified markets began to move higher, dealers became excited and pushed prices to exorbitant levels at a rather impulsive rate. The repercussions which soon develop are simply explained when the supply of coins on the market becomes excessive (supplies, of course, increase once the prices skyrocket and potential sellers desire to take profits) compared to the demand: What goes up will usually come down and just as quickly. If a potential seller does not react swiftly enough, he will find himself chasing a market downward.

Inasmuch as this market is progressing at a trifle slower pace than previous markets, many dealers are more confident that the long range outlook may be much more pleasant as the strength of the current Bids may be more resistant to the impulses of the normal supply/demand cycles. Furthermore, the common (generic) issues are **only** stable at current Bid levels. In other words, the current market is not being fostered on the basis of the generic issues which have been paramount in previous market advances; at best, and this seems to be a rather important ingredient to most dealers, the common coins are steady. The conclusion to be drawn then, is that this

march is being fueled by better issues. If this is truly the case, and generic coins can remain stable, then the rare coin market may have overcome one of the obstacles which has haunted it in the past. That being the fact that the most common coins lead a market rise; when, in fact, rarity should be the chief determinant of market trends.

It is difficult to determine which series is leading this onslaught because they are all very active. More important may be the fact that over the last couple of weeks the number of marketmakers who are participating at these higher levels has expanded immensely. Commems are very strong at higher levels; most importantly, grades from MS63 and higher are on want lists. If MS63's aren't wanted at higher Bids, at least they are in demand at current Bid levels.

While Gold has been mixed this last week (inter-week trading saw some lower Bids), it is seeing some healthy activity. A market does not have to go straight up to be considered healthy; as long as it is being actively traded, dealers and their clients will feel comfortable with it. Merely being an active arena where one can buy and sell with the least amount of effort radiates confidence in the whole marketplace. Despite the fact that prices may have been mixed during the week, all the plus signs belie this truth. The majority of issues indicate price adjustments which clearly demonstrates that dealers are serious about locating coins for their customers. And selling coins is what fuels an up-market.

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns: grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at 311 Market St., Dallas, TX 75202. Phone (214) 742-2200. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Hugh Sconyers

8601 Wilshire Boulevard
8th Floor
Beverly Hills, CA 90211

CERTIFIED COIN DEALER

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. IV No. 45

November 10, 1989

Single copy price \$3.50

Plus Signs Dominate Charts Antithesis of Just One Short Month Ago

As plus signs continue to outnumber minuses by ten or twenty to one, we were struck by one of the nuances of the market's continuing volatility. While the "average" market as a whole moves up or down, there are contradictory movements to be found for specific issues. Such movements will come as no surprise to old-time numismatists, who are used to seeing some items fall into disfavor just when it seems that the rest of the market is going up; what is surprising is how noticeable the new teletype services have made such contrarians.

This contra-motion is most noticeable with the better issues, and especially those with a thin collector base. Buffalo nickels have always been popular with collectors, but no-one would claim that there is a strong collector demand for complete sets in MS-65—the money simply isn't there. We were reminded of this by a dealer who watched as *Bluesheet* Bid for a 1918-D declined from \$5,650 to \$4,000 over a period of 2 months, and then protested that the coin was still worth \$6,000.

That may be entirely true. As we have pointed out many times before, the *Bluesheet* reports on the highest visible national sight-unseen Bid. If that Bidder is close to the "market" value of the coin, then the *Bluesheet* Bid will be close to the "market" value; if the highest visible Bidder is bidding at one-half the "market" value of the coin, then the *Bluesheet* will reflect that lower value. The purpose of the CCDn is not to report on current market value, only the highest sight-unseen market Bid. And the Bid on any teletype should not be confused with the "real" market value. We are thrilled when the two coincide, because it means a healthy Bidding market; otherwise,

the *Bluesheet* Bid really is best thought of as the starting point for negotiations on price.

In the case of the 1918-D Buffalo, the highest visible national Bidder withdrew his high Bid of \$5650. We don't know whether he bought a coin at this level or changed his mind—in fact, his motivation is not important to the analysis of the effect of his actions on potential sellers. Motivation does factor into the level of his high bid relative to the prevailing market value. Assuming a coin is "worth" \$10,000 to the market, a dealer may enter a Bid of: \$6500 to reflect his general interest; \$8500 to reflect the interest of a customer who wants one, but only at a bargain price; \$9500 to reflect the interest of a customer who is anxious to secure an example of this rare coin at market value; or \$10,500 to reflect the specific interest of a customer who "has" to have one to complete his collection. If the specific demands evaporate, the high Bid drops back to one of general interest: "Sure, I'll pay this low amount if somebody wants to sell one cheap!"

So, has the value of the coin dropped? Is the 1918-D Buffalo really worth that much less? Probably not, unless you had one to sell today and you intended to sell it to the highest visible Bidder without trying to determine the real market value or who the highest Bidder really is. Foolish, perhaps, but that is the nature of a market of last resort. And lest anyone criticize dealers for not posting realistic Bids, remember that as long as the market demands a premium above high Bid when selling, why tip your hand to your highest paying price? And if the Bid for the higher, non-existent, grades drop too, that is the nature of the market.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 400 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect sight-seen trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 375 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984 to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin
 market for certified coins only. Only the most active areas for
 the most active grading services are represented. CCDn uses
 every means available to insure accuracy and completeness of
 the bid prices shown. Since prices represent the highest known
 bids at press time and they are based strictly on dealer needs,
 prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer.
 What price levels an individual dealer buys or sells at is strictly
 up to the dealer. CCDn represents only that the bid prices listed
 were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible
 bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit,
 on a sight basis.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 300 Charter and Associate members. *Look for premium quality, NGC certified coins at the following Charter Member/Dealers.*

Bidding Activity Escalates As Dealers Aggressively Pursue Coins For Clients

It looks like this week's number of plus signs will be far greater than the number from last week. (And this is *after* excluding the multitude of pluses to be found on the two supplemental pages included this week—covering Standing Liberty Quarters, Franklin Halves, P/L Dollars, \$20 Saint-Gaudens, among other charts). This is important to note because the majority of dealers measure the strength of the current market by the number of plus signs exhibited. Since the count does not give any indication of the average **amount** of increase, it is a rough indicator at best—although it works well as a measure of the **breadth** of the advance.

What may be even more significant is the fact that the quantity of minus signs remains very low. There are certainly plenty of coins being advertised for sale, but the **ASKS** are usually *well in advance* of Bid levels. This is another good diagnostic tool for dealers' opinions on the health of the market—dealers are willing to ask more when they think the market will continue to rise, and profits become more important than mere cash flow.

These two elements indicate that there are more buyers than sellers in the wholesale market at this time. The coins dealers are buying have to be going somewhere (they are not remaining in inventory under the recently instituted 'surplus merchandise management policies'). Dealers are reporting to us that their clients are doing a large part of the buy-

ing. Assuming that this is actually the case, then many of the coins being purchased at this time will probably be taken off of the market for a specified period of time. This will serve to stabilize the market and create a new base from which to assess the near-term potentiality of numismatics as an investment.

It is one of the collectors' "catch-22s" that increased collector activity means increased investor interest. The **true** collector, and by that we mean the one who has no fixed deadline for selling in mind while he is buying, will find it difficult to take advantage of the cyclical interest of the investor. Here the dealer can take an active role in bridging the gap between the mentalities of the collector and the investor. If the collector can be "trained" into putting some of his budget into nice items for the sole purpose of strategically selling them into a bull market, then he will gain additional revenue to put into the areas in which he is interested in collecting. For the dealer who knows where he has "placed" his better material, this has the effect of producing an extended "inventory" and of strengthening his ties with his customers.

If you are looking for one area of the market to be more active than another, you may have a long search. Every chart seems to have a disproportionate number of pluses over minuses. Most series have less than 10 minus signs, while the plus signs number as high as 500. This is a very diversified bull market.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 475 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 450 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza, Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client orsight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

The Emperor and the King Hold Court at PCGS.

Introducing our Canadian Coin Grading Service

Nearly four years ago, the Professional Coin Grading Service was established to meet the urgent need for standardized, third-party grading in the rare coin industry.

Since 1986, PCGS has graded 1,628,961 U.S. coins with a cumulative declared market value of \$1,756,781,783 through a network of 490 authorized PCGS dealers throughout the United States and Canada.

Now PCGS is proud to announce a new service tailored to meet the needs of the Canadian coin market.

Over the past 18 months, PCGS has enlisted the expertise of many of the leading Canadian numismatists on the continent (including Walt Armitage, Sandy Campbell and Charles Moore) to diligently assemble a representative grading set of Canadian Coins.

With all systems in place, our new Canadian coin grading service is now

on-line for the certification and authentication of Canadian coins, including the Maritime Provinces of New Foundland, New Brunswick, Nova Scotia and Prince Edward Island.

In addition, each Canadian coin submitted to PCGS is graded by a *minimum* of three members of our expert Canadian coin grading staff before the final grade is assigned. PCGS employs the same 70-point grading scale utilized in the grading of U.S. coins, and designates Mint State, Specimen, Proof-like and Proof Striking on Canadian coins. Each coin is also encapsulated in our new state-of-the-art NumisCap™ coin holder, as well.

The King of Canadian Coins: The 1921 George V Silver Half Dollar. One of the finest among approximately 12 known specimens. Valued at more than \$100,000. Graded SPECIMEN-65 by PCGS.

The Emperor of Canadian Coins. The 1911 George V Silver Dollar. One of two known specimens. Valued at \$750,000. Graded SPECIMEN-65. The first Canadian coin graded by PCGS.

For the first time ever, PCGS can offer the investors and collectors of Canadian coins the same advantages that have revolutionized the U.S. rare coin market: The unparalleled PCGS guarantee of grade and authenticity, coin safety, consumer protection, improved liquidity, and the highest standards in the industry.

Perhaps that's why PCGS was selected to grade the two most famous and highly valued Canadian numismatic rarities in existence: The Emperor and the King of Canadian coins.

Shouldn't your Canadian coins be graded by the Professional Coin Grading Service, too? For more information about all of our services, write or call today.

The Emperor and the King displayed in the new PCGS NumisCap™ numismatic capsule.

Because the customer wants to know...

Because the coins can be worth significantly more...

Because today's buyers are increasingly sophisticated...

Time was when rare coin buyers were not sophisticated. To many, particularly those with investment in mind, an MS-65 was an MS-65 was an MS-65.

\$1,000 More for PQ

Reality is different. Not all MS-65 coins are alike, and often a sharply struck coin of superb aesthetic quality, such as a 1941-S half dollar which we designate MS-65PQ (Premium Quality), can be worth significantly more than a "generic" MS-65. Indeed, the 1941-S half dollar, which is usually found weakly struck, can be worth many hundreds of dollars more if it is of Premium Quality. A leading rare coin firm recently considered two MS-65 coins of this variety, one a "generic" piece and the other MS-65PQ, and offered \$1,000 more for the MS-65PQ.

More Than "Generic"

HALLMARK Grading Service recognizes that coins are not "generic," and provides the sophisticated coin buyer not only with third-party unbiased grading, but, as applicable, information concerning Premium Quality, mintage figures, die varieties, and pedigrees...all imprinted on a high-security (by American Bank Note Co.) certificate insert in a clear, attractive, museum-quality encasement (slab).

For Discriminating Buyers

To sum up: HALLMARK-graded coins are for today's discriminating buyers who want something more than ordinary or "generic" grading. Those who have already experienced our quality and service are enthusiastic, and you will be also!

HALLMARK Success Story

We invite you to become part of the HALLMARK Grading Service success story. Send us the coupon below, and we will send you information about how you can submit your coins. If you are a dealer, request our packet of dealer information. Either way, HALLMARK makes you and your coin a winner!

The HALLMARK logo identifies dealers who demand only the finest for their clients.

Active Market Continues at Current Levels Still Some Buying Opportunities

Bidding continues strong as this latest Bull Market heads into the Holiday season. Well, "Bull" may be a bit strong to describe a market whose upward movement is less than one month old, but upward it is! Perhaps at this stage it should be called a "baby-bull". There is considerable activity at current levels, so the modest decrease in the number of plus signs since last week seems to be the result of a consolidating market. The minus signs seem to be about equally divided between sells and lowered Bids.

The sells creating minuses seem to be one of the "new" more-or-less permanent features of **sight-unseen** bidding. Bidders are spending more time micro-managing their inventories to make sure that they are positioned to realize maximum profits from the coins which they carry in stock. When they decide to sell a coin because they would rather have the cash or to reinvest in an item with a greater potential for their customer base, they may sell the coin as quickly as possible. Since many of these coins were purchased before the recent 'run-up', they are eschewing the big profit in favor of the *quick* profit. The quickest way is to price the coin at "Blue-Bid"; this has the dual effect of giving the buyer a "good buy" and modestly lowering the *Bluesheet* Bid.

Other minuses can be attributed to dealers who have withdrawn or substantially lowered their Bids prior to the long Holiday weekend. While we have always been strongly in favor of vacations, we have noticed that teletype rules seem to be encouraging more dealers to remove their Bids

prior to spending any time away from the office. This is one of the issues that becomes noticeable when a sufficient number of dealers begin to act similarly; 'all of a sudden' before a major holiday, **sight-unseen** refers to the Bids themselves instead of the manner of buying coins.

These little permutations within the larger cycles of certified coin prices can spell real buying opportunities for the cash-heavy dealer or the astute collector. What better time to buy than when the market has slowed a bit and the seller may need a little cash for vacation plans. Like all markets where it pays handsomely to 'Buy Low' and 'Sell High', coins present periodic opportunities to demonstrate the muscle of cash. It will be interesting to see how the next month develops.

During the past week, gold has continued its recent climb. The analysts continue to scramble for new explanations, since the old reliable standbys of "world political uncertainties" and "cold war warm-ups" seem to have outstayed their welcome this year, thank you. There continues some talk of inflation rearing its ugly head, but to date its effect on rare-coin prices remains uncertain. As gold approaches the \$400 level, it becomes a question of why now? Without that answer firmly in hand, the more difficult matter of "how far" becomes almost impossible to predict. We offer no special insights, except to volunteer that whenever we see the traditional "Wall Street" financial press running articles on gold, we get just a little nervous. Maybe being a contrarian is easier than we think.

PCGS Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 475 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 450 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza, Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued, if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 450 Charter and Associate members. Look for premium quality, NGC certified coins at the following Charter Member Dealers.

Coaster Dips on Roller Ride Thrills & Chills Before Winter Holidays

Every two months or so, when the **sight-unseen** certified market reverses, we are tempted to trot out our standard paragraph; after all, there are only so many different ways that you can say the same thing. But, since this is the season when faith holds such an important place in our thoughts, perhaps a few commandments for life in the Certified lane might be appropriate: 1) Volatility in certified coins is rampant and extreme; 2) Volatility is here to stay; 3) When Bids drop precipitously, it has nothing to do with the medium-term underlying value of the coins; 4) If Bids continue at the lower levels too long, the long-term coin values tend to migrate towards the lower figures; 5) If you need to sell your coins today into the **sight-unseen** market, then short-term, yes, your coins are worth less; 6) No one teletype service is the entire market; Bids from all sources must be considered to determine current market values; 7) Short-term, teletype bids are better indicators of dealer cash flow positions than coin values.

If all this sounds just a bit negative, perhaps it is because there are still some dealers who would prefer to shoot the messenger when Bids drop. The purpose of the *Bluesheet* is to present the highest current **sight-unseen** Bid in the marketplace (perhaps that should be #8). We do not maintain that coins are "worth" Bid; in almost all cases, coins sell for a premium to Bid (#9), especially to sight-seen buyers (#10). Do we think coins are worth more? Perhaps, in most cases; but what we think is unimportant. What counts is what dealers actively buying and selling think, or more to the point, what they are **doing!** For every dealer who tells us he thinks Bid should be higher, we ask why we haven't seen his higher Bid.

Certification has made the market interesting. A case in point is the PCGS 1943-D Walking Liberty Half in MS-63. A leading dealer putting together MS-63 sets had to take 64s at his 63 Bid; 64s that he cannot use. Since he needs 63s to complete his sets, he is willing to trade his 64s for 63s plus a \$10 sweetener. Ever thought you would see lower grades more valuable?

On a darker note, the Bid on some Morgan Dollars (that increased 5% to 10% last week) dropped more than 20% this week. Has the market really changed that dramatically? Has the value of the coin changed that drastically? Among the tens of thousands of Morgan Dollar collectors, did the demand for the MS-65 1900 O/CC suddenly decrease 20%? This week, did 20% of the collectors decide they really didn't want to buy one?

The answer is most certainly no; we would even bet that it is a resounding NO. In fact, we would go so far as to say that not a single collector's interest in the O/CC dropped 20%. So what gives? Dealers with customers for that coin will have a specific level of interest therein; but it is to their benefit to buy the coin for their customer as cheaply as possible—so they are not likely to run up the Bid. Other dealers have only a general level of interest in that coin; if one walks through the door, it is worth buying if they can turn a profit. They are unlikely to Bid for an item that they don't really need or want. So the market is left with a relatively small group of active Bidders whose actions are swinging the market wildly. Any dealer unhappy about the results can find the remedy as near as his pencil or telephone.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 475 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 450 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza, Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal, if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

The American Rare Coin Fund, L.P.

“Wall Street’s First U.S. Coin Fund”

We have \$40 Million to invest in coins and coin collections. Immediate decision. Immediate payment.

We are looking for raw coins, PCGS or NGC.
In all grades.

Because our coin Fund is utilizing many different strategies, we are the top buyers in the coin market today — and we are looking to establish dealer relationships.

If you want to deal with the coin market of the future,
contact:

The American Rare Coin Fund, L.P.

Hugh Sconyers

8601 Wilshire Boulevard

CERTIFIED COIN DEALER

a weekly report on the certified market
published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. IV No. 49

December 8, 1989

Single copy price \$3.50

Certified Market Is Mixed As Trading Slows Slightly For The Holidays

More and more, as we study the certified coin market, it appears that the dealer community is realizing that **the sight-unseen market is strictly a function of supply/demand and cash flow**. One week, the market in a particular area can be higher than the previous week; and the next week, it may be substantially lower. The Bidding activity of the marketmakers conforms to this theory, as they raise or lower their Bids due to their individual **inventory/cash equilibrium**.

As we all know, this is a fickle business and conditions can change quickly. For example, want lists, discretionary income, and passions can all change course as quickly as a swirling wind. This industry has been dramatically changed by these 'winds of change' over the last three years, and many of the changes have been designated 'progress'. However, change is often difficult on the 'changees', and at times it seems like numismatics is at the mercy of changes that came a trifle "too fast". Regardless, this is the path that has been chosen, and that dealers must follow; that is, until something better comes along or new leaders emerge.

In the meantime, volatility is the name of the game—at least for the *sight-unseen* market. *Sight-seen* will remain less volatile because the buyer still has a choice as to whether he likes the coin or not; prices will not change as rapidly due to this consideration. However, as long as a major segment of the certified market demands that dealers post *sight-unseen* Bids, then they must be willing to accept this dramatic volatility.

This seems especially noteworthy this week, since we have been receiving seemingly contradictory reports about the collector market. Dealers who mainly service collectors, or who wholesale to dealers who service collec-

tors, are reporting brisk business; so brisk in fact, that they are complaining about the lack of nice material and their inability to find enough inventory to satisfy the demands being placed on them. Then, from another quarter, we are listening to grieving over the slipping Bids on the lower grades of generic material—the items that have been traditionally consigned to the collector market. There seems to be an abundant supply of material meeting little demand.

That leaves us with two questions. The first, asked with some desperation by one dealer: "Are there any collectors left out there?" Well, we can answer with a definite 'yes' to that, although they have been changed by the certified market. Their needs are being met by the thousands of smaller dealers (there are also a few major retail houses who cater to the collector) throughout America who have the time, energy, and patience to take care of them; this is the greater numismatic market. The second question is trickier: "Are the collectors buying lesser-uncirculated slabs?" The answer, at least for dollars, seems to be that the collector will buy coins, either raw or slabbed, **if he likes what he sees**.

For the collector, *sight-unseen* Bids are basically meaningless, as is the slab. If he likes the coin and the price, he'll buy it; if he doesn't, he will pass in favor of another coin on his want list. Volatility, and the high price increases for higher quality, may have made the collector withdraw from that part of the market, but they continue active elsewhere. If the certification services and dealers together can change collectors' attitudes of irrelevance towards slabs, then the market will be that much closer to becoming unified.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 475 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDN Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 450 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza, Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued, if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDN Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

COMMEMORATIVES

Some bids within represent very conservative sight unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 450 Charter and Associate members. Look for premium quality, NGC certified coins at the following Charter Member Dealers.

Holiday Market Languishes As Dealers Show Indifference Toward Higher Bidding

Market activity continues to be moderately subdued, with modest action at current price levels. While this is not uncommon between the Thanksgiving and New Year's holidays, it has the effect of making some dealers (and investors) nervous. After all, in an age of three-week boom markets, six weeks of activity resulting in little price movement seems like an eternity.

On the good news side, we are seeing few discounted sells, so at least dealers aren't anxiously selling into the stable market for cash flow reasons. This is good news because 1) this is a cash flow business and it is usually a good sign for dealers to be cash-heavy, and 2) the discounted sells almost always have the effect of turning a relatively stable market into a declining market.

Dealers also seem to be fairly pleased with their inventory positions, which means that they are lowering their Bids to take advantage of their cash and inventory strength, not because they necessarily think values have dropped. It has become traditional to go to the FUN Show in early January with a strong inventory; this has been one of the reasons why the FUN Show has been so successful over the years. It doesn't take a marketing expert to realize that a show with lots of cash & coins is a show that will sizzle. And while a stable market doesn't do much for the dealers who specialize in profiting from rapid price movements, it does help the ultimate consumer (the collector) feel more assured about his spending sprees.

Morgan and Peace dollars continue to function as worthy market indicators. Generics continue to show volatility, with minus signs again on the MS-65s. It seems hard to believe that less than a year ago these were selling at twice the price. We don't see that collector (or investor) demand has dropped all that much, so we are forced to conclude that this is what happens when the supply increases. When the plastic is rarer than the coin, funny things can happen to prices.

Perhaps there is a lesson here for all who are contemplating paying enormous premiums for low population coins. You may benefit handsomely, or a safe-deposit box somewhere in Kansas may hold the seeds of your undoing. Not to mention shipwrecks and other sundry surprising sources of rare coins.

We have heard one veteran dealer proclaim that 60% of all the **quality** rare Morgans have been slabbed. That sounded a bit high, so we mentioned the figure to one of our more cynical sources, who replied that he thought it more likely that 20% of the **quality** coins had been slabbed 3 times each. It will probably take twenty years before we can be sure who is right. Dealers, traditionally holding the finest examples encountered for their personal collections, have been prime submitters of coins for certification, so the higher figure may be closer to the truth. But we keep thinking about some of those safe deposit boxes that we have been privileged to inspect, with roll quantities of quality pieces. What a great idea for stocking stuffers.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 475 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 450 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza, Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens, and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation", and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

PROOFLIKE MORGAN DOLLARS

PL Dollars may be semi reflective on one or both sides with less luster than the deep mirror Proof. Bids for PL are usually more than for DMPL, but coin and some premium are not PL or DMPL.

Memo from: HALLMARK GRADING SERVICE

To: Discriminating coin buyers everywhere

We are mighty proud of the fine network of rare coin dealers who are authorized submission centers for HALLMARK, the connoisseur's grading service.

Contact any dealer in the list below, and your coins, encapsulated in beautiful HALLMARK "slabs," will be back in your possession quickly. As we go to press our turnaround time is only 10 working days!

In addition to the technical or numerical grade, HALLMARK holders give additional information, as applicable, concerning Premium Quality, mintage figures, pedigree, attribution, etc.

Jump on the HALLMARK bandwagon! Contact your authorized HALLMARK dealer today. (Note to other dealers: Contact us for information about how YOU can participate in the HALLMARK program.)

THE ADVERTISING BUY OF THE DECADE WILL BE IN YOUR HANDS NEXT WEEK

The Coin Dealer Newsletter family of publications reaches every major dealer in America, as well as all serious investors and collectors. This is your prime numismatic audience – these are the sophisticated numismatists that you can target only through advertising to our elite group of subscribers.

Your advertisement in the **1990 Numismatic Dealer Directory** will reach this audience for one entire year! A free copy of the directory will be mailed to every one of our subscribers shortly into the new year. As effective as our weekly advertisements are, just imagine getting a whole year's worth of impact for less money. A full page ad will only cost \$85 per month; or you can enjoy very large discounts for prepayment and/or multiple placements. We will have a wide range of sizes and placements for your convenience – everything from your business card to a full page, and all at very reasonable rates. We will be printing shortly into the New Year, so time is of the essence! Make sure to place your reservation now for "Greypages" advertising!

Just watch your mailbox next week for our **Numismatic Dealer Directory** brochure! Immediately upon receipt, return your information card to verify your company name, address, phone numbers, and staff listings. Remember that the basic listings of company name by state and last names by alphabetical cross-referencing are free! You just have to return the card.

My advertising brochure didn't arrive; please rush me a copy!

☐ My free listing for the
1990 Numismatic Dealer Directory

☐ Yes, I am interested in reserving
advertising space. Please contact me.

December 22, 1989

Single copy price \$3.50

Decade of Innovation Ends; Another Begins Last Issue of 1989

This is the last *Bluesheet* issue of 1989, and it marks the end of a decade of almost unbelievable change for numismatics. The single most astonishing difference in the market has to be the explosion of certification services. With millions of coins being slabbed, there was an obvious need in the marketplace that was recognized and met.

While coins (like other investments) consistently went Up & Down in the past (usually over a period of years), certification seems to have brought new meaning to the term "volatility"; although, to be fair, the volatility may be a by-product of slabbing, and not a result. Greater 'efficiencies' in communication in all investment areas have resulted in increased volatility as the ability of electronic media to deliver information has outstripped man's abilities to assimilate and act wisely upon it. But we need challenges for the Nineties, and we feel confident that numismatists will continue to evolve with their 'hobby'. So we wish you not only a Happy Holiday this year, but a prosperous decade as well.

While the market ends the year on a typically slow note, the lower level of bidding activity has still produced some noteworthy plus signs. The Type charts are covered with plus signs, and many of the recent declines in the Morgan series have been reversed as well.

We are reminded by some recent activity that the numismatist, whether collector, investor, or dealer, must **know** every issue in which he or she has interest in order to make informed buying or selling decisions. In this

issue of the *Bluesheet*, we lowered the Bid on the 1903-O Morgan in MS63; bids on the teletype systems for a certified example were at a lower level, and an example was offered for sale at \$5 below last week's Bid. Still, there are several Bidders actively seeking the coin in circulated grades, "raw" or "slabbed", who are willing to pay \$120 for a VG, up to \$155 for an AU example. When you match an AU buyer at \$155 with an MS-63 seller at \$170, you don't leave much room for pricing the 'lesser uncirculated' examples. This tight spread almost seems like the 'good old days' of coin collecting; a small premium will purchase a much nicer coin. Similar situations can be found with the 1884-CC and 1885-CC dollars as well.

So, the numismatic market at the end of the Eighties is far different than it was at the beginning, but some aspects of numismatics remain the same. The informed numismatist is the best numismatist, and there is no substitute for knowing the coins and the market. **Sight-unseen** Bidding will continue to play a role in the market, but collectors will continue to make their purchases the old-fashioned way—**sight-seen**. Some coins will continue to sell for astronomical premiums for only a slight difference in quality, while others will barely notice the difference. And for the collector trying to assemble a matched set of slabbed, we will probably see increased examples of higher prices being paid for lower grades. Perhaps the Nineties will bring us equally pleasurable observations on the state of man and his investment/collectible hobbies.

PCGS

Professional Coin Grading Service Established in 1986 to grade and authenticate U.S. Coins. PCGS is located in Newport Beach, CA. and has certified more than 1 million coins. All coins must be submitted through authorized PCGS dealers; contact PCGS at (714) 250-1211 for their list of more than 475 authorized dealers (throughout the U.S. and Canada).

PCGS has more than 15 graders on their staff, and a minimum of three must agree on the grade of a coin before the final PCGS grade is awarded. The regular service costs \$26 per coin, plus postage and insurance; several levels of Express service with time guarantees are also available at additional cost. After grading, the coin is sonically sealed in an inert, hard plastic container and returned to the customer. PCGS has a cash-backed grading guarantee.

PCGS identifies color on copper (Red, Red & Brown, Brown), Full Bands on Mercury Dimes, Full Head on Standing Liberty Quarters, and Prooflike and Deep Mirror Prooflike on Morgan Dollars.

PCGS has a comprehensive grading set which includes most major series. PCGS is a grading service only and does not make markets in any coins. All PCGS dealers are independent contractors, who are responsible for their own making of markets in PCGS coins; many of them make sight unseen bids for PCGS coins. PCGS publishes monthly population reports.

ANACS

American Numismatic Association Certification Service the first authentication service (established in 1972), to which grading services were added in 1978. ANACS proceeds promote numismatics through the membership services of the ANA (the largest non-profit, educational organization chartered by Congress). ANACS renders unbiased, third party grading opinions. To ensure objectivity, each coin is inspected by at least six in-house authenticators/graders (who do not trade coins commercially), before verification by a member of the Professional Numismatists Guild. ANACS also utilizes the expertise of more than 100 outside numismatists retained by the ANA.

ANACS offers the following services for all regular issue U.S. coins & patterns grading with a certificate displaying color photographs of the obverse and reverse; or grading and encapsulation in a plastic "Cache". ANACS uses all 11 uncirculated grades, and cached coins denote color on copper, Full Split Bands, Full Head, Cameo on Modern Proofs (1950-1964), and PL and DMPL on Morgan Dollars.

Costs start at \$23; a free booklet describing services and fees is available from ANACS, 818 N. Cascade Ave., Colorado Springs, CO 80903-3279, phone 800-367-9723 or 719-632-2646.

CCDn Bids reflect 1986 and newer certified coins, and assume the certificates have no negative comments. Due to current trading volume, ANACS Bids will be listed only once each month, and reflect *sight-seen* trading.

NGC

Numismatic Guaranty Corporation of America Established in 1987, to grade and authenticate U.S. coins. Located in Parsippany, New Jersey. You must submit coins to NGC through authorized NGC dealers. Phone (201) 984-6222. NGC has more than 15 graders on its staff and every coin is viewed by a grading team of 3-5 members. A finalizer assembles the grades and verifies the final grade. The finalizer must not be in the buying or selling end of the coin business. The service costs a minimum of \$23, plus postage and insurance, no matter what the value of the coin. After it is graded, it is then placed in a "lab-tested" (inert), hard plastic holder and sonically sealed, then returned to the customer.

There are over 450 authorized NGC dealers who will send coins in for grading. Many of these dealers will make sight unseen bids for NGC graded coins. NGC will not grade coins dated after 1964. Their grading philosophy is designed to be strict no matter what condition the coin market is in. The principals of NGC do not buy or sell coins for commercial profit "Arm's length". NGC has a grading set for the popular series and is currently working on sets for other series.

NCI

Numismatic Certification Institute Organized in June, 1984, to grade and authenticate U.S. coins. NCI guarantees the authenticity of every coin it certifies. They are located at Heritage Plaza, Highland Park Village, Dallas, TX 75205-2788. Phone (214) 528-3500. NCI uses three graders in a determination of a final grade, and thirty professional dealers act as consultants. Many of these dealers also market NCI coins.

Grading is based on the philosophy of James Halperin ("N.C.I. Grading Guide") which may be considered somewhat liberal (commercial) when compared to the other three services listed. Regular cost is \$24 per coin and turnaround time is approximately fifteen business days or less. You may request a specific grade and if NCI can certify at that grade or higher, a certificate will be issued; if not, the coin will be returned ungraded with a charge of 50% of the regular fee. They will certify coins already in holders without removal if requested.

NCI has established grading sets for silver dollars, \$20 St. Gaudens and Walking Liberty halves. They also have reference sets for silver dollars pertaining to "eye appeal", "luster", "surface preservation" and "strike". Due to current trading volume, NCI coins will only be listed once a month. CCDn Bids reflect 1987 and newer certified coins.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The Bluesheet

Certified Coin Dealer newsletter reports the national coin market for certified coins only. Only the most active areas for the most active grading services are represented. CCDn uses every means available to insure accuracy and completeness of the bid prices shown. Since prices represent the highest known bids at press time and they are based strictly on dealer needs, prices will fluctuate according to these needs.

Individual buy and sell prices will vary from dealer to dealer. What price levels an individual dealer buys or sells at is strictly up to the dealer. CCDn represents only that the bid prices listed were the highest known to us at press time.

ENGINEERED FOR UNBIASED GRADING

The Numismatic Guaranty Corporation was founded to ensure unbiased, arms-length coin grading. The principals of NGC can not buy, sell, or trade coins commercially. NGC is creating the standard for objective, consistent, and accurate grading of higher quality, investment grade coins.

Numismatic Guaranty Corporation has over 450 Charter and Associate members. Look for premium quality, NGC certified coins at the following Charter Member Dealers.
